A MESSAGE FROM OUR PRESIDENT

Together, we can gather resources and make thoughtful decisions to improve the health of those who choose us for their cancer care.

Thank you for your continued support of Fox Chase Cancer Center and your interest in our 2019 Community Health Needs Assessment.

With a rich history of scientific and clinical achievement dating back to our founding in 1904, Fox Chase Cancer Center has led the field in advancing the health and well-being of people facing cancer. Our mission of prevailing over cancer is evident both in the caliber of our physicians and scientists who are making practice-changing contributions to our understanding and treatment of this disease, as well as our patients, many of whom are educated consumers who seek high-quality care and take a deliberate approach to healthcare as their own advocates.

This report outlines important insights into the healthcare needs of the community we serve, highlights ideas that can serve as the basis for future growth of programs and services, and notes opportunities to form beneficial community partnerships. The information we gain from our CHNA is also critical in helping us pinpoint the resources we need to provide excellent care to all of our patients, including those who are underserved.

To effectively address the modern challenges of oncology care, we need the support of our community partners in the Greater Philadelphia region as well as our Fox Chase Cancer Center community. Together, we can gather resources and make thoughtful decisions to improve the health of those who choose us for their cancer care.

We are grateful for the opportunity to make a positive impact on the lives of our patients and their families as we share this report with you.

Richard I. Fisher, MD
President and CEO
Fox Chase Cancer Center

INTRODUCTION TO THE COMMUNITY HEALTH NEEDS ASSESSMENT

Fox Chase Cancer Center (FCCC) is proud to present its 2019-2021 Community Health Needs Assessment (CHNA). This report summarizes a comprehensive review and analysis of public health, socioeconomic, and other demographic data from our immediate service area within Philadelphia, Eastern Montgomery, and Bucks Counties. All data was reviewed and analyzed to determine the top health issues facing our immediate and surrounding communities.

This CHNA will assist our hospital, as well as local and community organizations and social agencies to identify community health priorities, develop interventions and determine how to effectively commit resources to improve the health of the neighborhoods we serve.

We offer special thanks to the many community-based organizations and over 100 citizens and stakeholders that participated in this assessment. We appreciate their time and valuable input throughout the CHNA process. We also thank our patients, their families and communities without which this assessment would not have been possible.

Thank You!

ABOUT FOX CHASE CANCER CENTER

From its founding in 1904 as one of the nation's first cancer hospitals, Fox Chase Cancer Center has distinguished itself as a leader in oncology research and care. The Center has been home to Nobel laureates and other luminaries who have made important contributions to our understanding of cancer, and the Fox Chase legacy continues strongly in 2019 with a broad range of nationally competitive basic, translational, and clinical research, as well as special programs in cancer prevention, detection, survivorship, and community outreach.

In 1974, Fox Chase was one of the first institutions to earn the prestigious designation of Comprehensive Cancer Center by the National Cancer Institute, the federal government's principal agency for cancer research and training. It means that Fox Chase meets the NCI's rigorous standards and excels in the areas of cancer treatment, prevention, and research. As such, Fox Chase physicians and researchers are frequently involved in setting new guidelines for breakthrough medicine and comprehensive care.

In 1995, Fox Chase became a founding member of the National Comprehensive Cancer Network, an organization made up of the world's leading cancer centers dedicated to setting the accepted standards of clinical best practice in the field of oncology.

In 2000, Fox Chase achieved Magnet designation for nursing excellence from the American Nurses Credentialing Center, having become the first hospital in Pennsylvania, and one of only nine hospitals in the world to earn this designation five consecutive times in 2018. Fox Chase physicians are consistently recognized as Top Doctors by Castle Connolly and Philadelphia Magazine.

Fox Chase's tremendous research legacy includes discoveries such as the Philadelphia chromosome, which led to the development of the field of cancer genetics and the development of the drug Gleevec, which has extended the lives of thousands of patients with chronic myeloid leukemia.

This history informs our unique "Fox Chaseness," a term coined to describe the special, intangible experience of being a patient at Fox Chase.

To prevail over cancer, marshaling heart and mind in bold scientific discovery, pioneering prevention, and compassionate care.

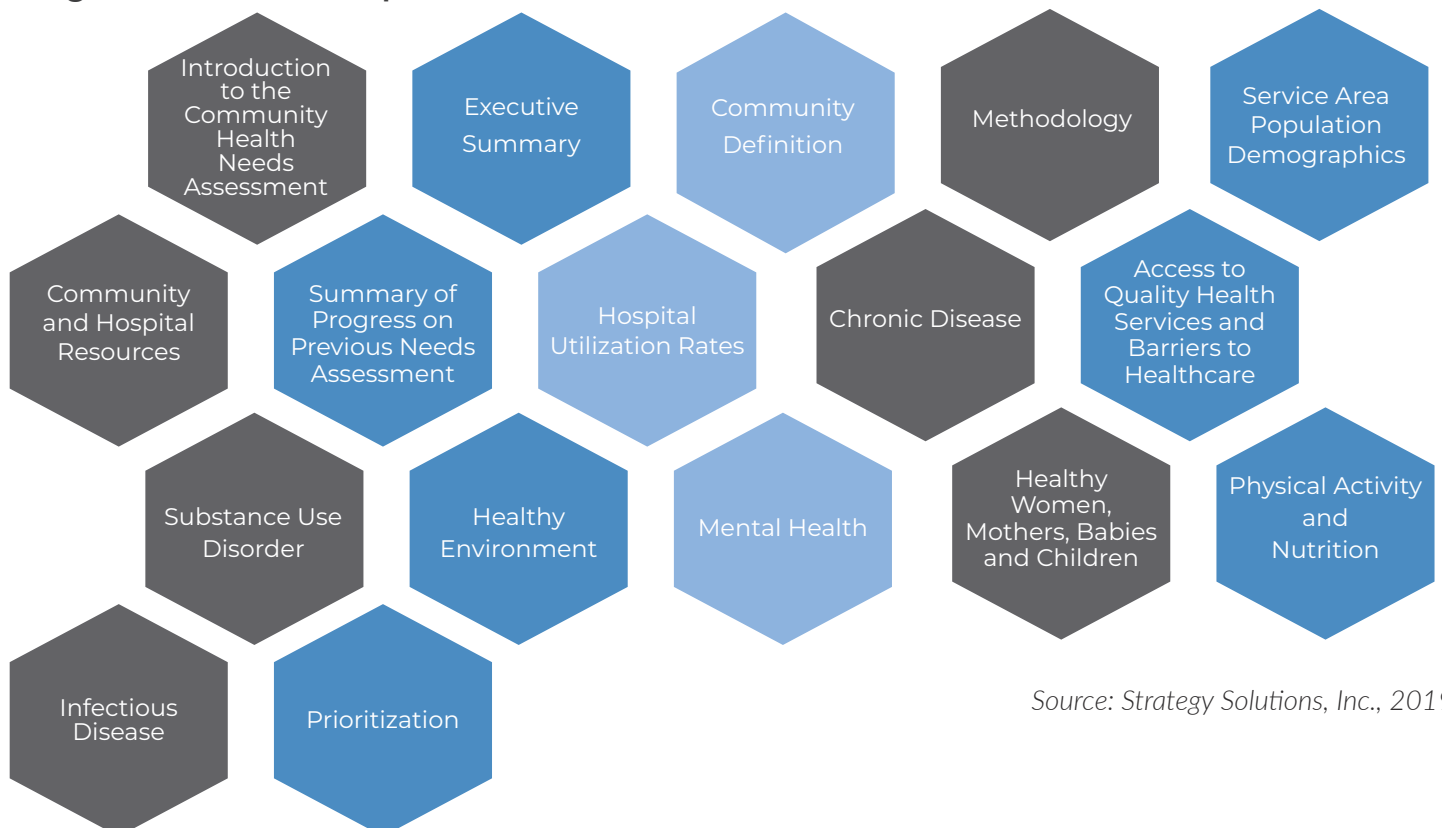

EXECUTIVE SUMMARY

A Community Health Needs Assessment (CHNA) helps gauge the health status of a community and guides development and implementation of strategies to improve a community's health. The CHNA process also promotes collaboration among local agencies and provides data to evaluate outcomes and the impact of population health efforts. The purpose of the needs assessment is to identify and prioritize community health needs so that the hospital can develop strategies and implementation plans that benefit the public as well as satisfy the requirements of the Affordable Care Act.

The 2019 Fox Chase Cancer Center CHNA process was facilitated by Strategy Solutions, Inc., a planning and research firm with a mission to create healthy communities. The CHNA process followed best practices outlined by the Association for Community Health Improvement and met all Internal Revenue Service (IRS) requirements for nonprofit hospitals.

The process was conducted to identify the primary health issues, current health status, and health needs of residents living within the Hospital's service area, particularly those related to cancer prevention, screening, diagnosis, treatment and survivorship. The results enable our Hospital and greater community to establish priorities, develop interventions, and direct resources to improve the health of those living in the surrounding community. This CHNA includes the components that are outlined in Figure 1 below.

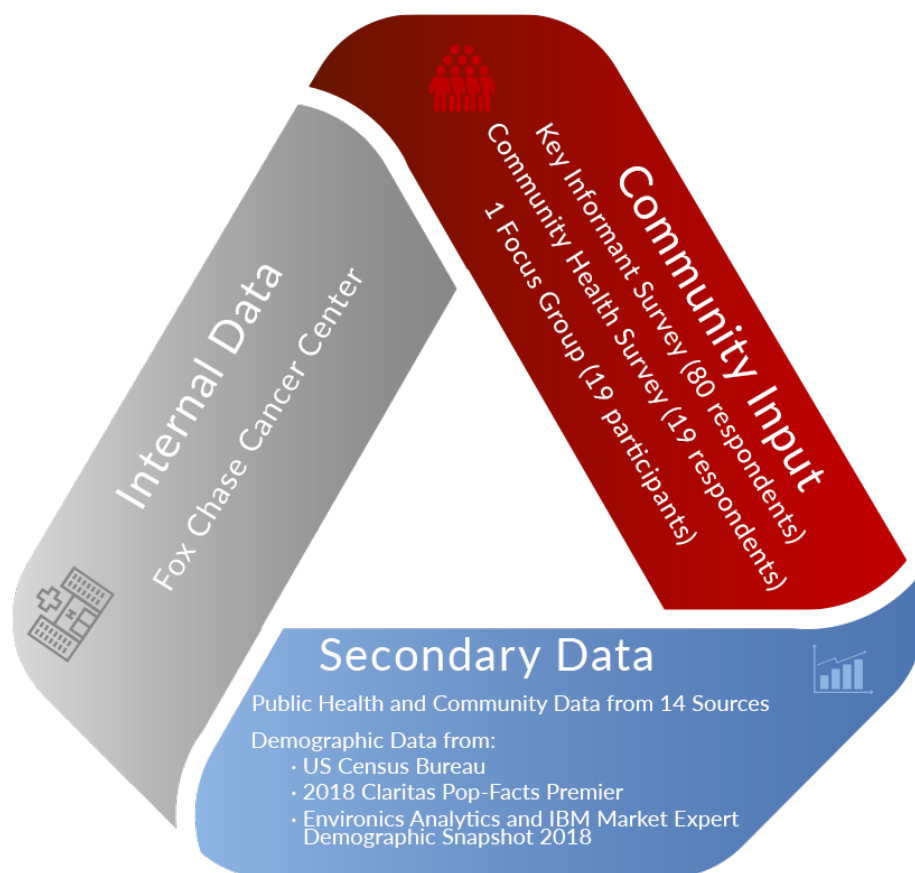

Figure 1: CHNA Components

Source: Strategy Solutions, Inc., 2019

To support this assessment, numerous qualitative and quantitative data sources were used to validate findings using the triangulation method outlined in Figure 2.

Figure 2: Data Triangulation

Source: Strategy Solutions, Inc., 2019

Using City, County, and State department of health data and national strategies including Healthy People 2020 and The Robert Wood Johnson Foundation's County Health Rankings as a framework for the CHNA, data were compiled from the most up-to-date, publicly available resources and primary research with community residents, providers and stakeholders.

Zip code level demographic and socio-economic data for FCCC's service area was collected from the U.S. Census Bureau (obtained through Environics Analytics and IBM Market Expert), the American Community Survey and the Bureau of Labor Statistics.

The indicators reported on for FCCCs 2019 CHNA can be found in Appendix A of this report.

FCCC collected a total of 80 Key Informant surveys, 19 Community Health Surveys and conducted a provider Focus Group with 19 participants.

On March 7, 2019, the FCCC Steering Committee met to review primary and secondary data collected and discussed the health needs and issues present across the hospital's service area. The FCCC Steering Committee is comprised of staff members responsible for leading key program areas that support our Community Benefit Program (Table 1). During this meeting, 35 needs and issues were identified based on health, social, economic and other health disparities found in the data (differences in sub-populations, comparison to state, national or Healthy People 2020 goals, negative trends, or growing incidence).

Table 1: Fox Chase Cancer Center Steering Committee Members

Name	Department	Title
Richard Bobroski	Treasury Services	Director Finance
Margie Clapper	Cancer Prevention and Control	Deputy Scientific Director
Susan Fisher	Office of Community Outreach	Associate Director
Paul Engstrom	Department of Hematology/Oncology	Professor Emeritus
Evelyn González	Office of Community Outreach	Senior Director
James Helstrom	Department of Surgical Oncology	Chief Medical Officer
Anne Jadwin	Nursing Administration	VP Nursing
Leah Kiesow	Tumor Registry	Director, Cancer Registry
Patrick O'Brien	Medical Operations	Chief Administrative Office, Physician Services
Camille Ragin	Cancer Prevention and Control	Associate Professor
Mary Sonke	Care Connect	Senior Project Manager
Stan Taylor	IS-Data Warehousing	Director, Data Warehouse
Mary Pat Winterhalter	Nurse Navigation-Ambulatory	Director, Nurse Navigation
Allison Zambon	Office of Community Outreach	Program Manager
Observers from TUHS		
Andrew Kunka	TUHS Government Relations	Public Policy Specialist
Sherry Mazer	TUHS Regulatory Compliance	Chief Regulatory Affairs Officer

During the meeting, the Steering Committee completed a prioritization exercise using OptionFinder, an anonymous audience response polling tool, to rate all identified needs on a 1 to 10 scale for each of the selected criteria below:

- **Magnitude of the Problem** - The degree to which the problem leads to death, disability, or impaired quality of life and/or could be an epidemic based on the rate or percentage of the population that is impacted by the issue.
- **Impact on Other Health Outcomes** - The extent to which the issue impacts health outcomes and/or is a driver of other conditions.
- **Capacity** - The extent to which systems and resources are in place or available to implement evidence-based solutions.

On April 10, 2019, members of FCCC's Steering Committee met to discuss the prioritization results and identified four (4) priority areas to focus on as a Hospital in order to address immediate community's health issues and care needs:

1. **Access to Health Care:** including mobile screening, education, health literacy and Spanish education materials;
2. **Chronic Disease:** including prevention, screening, worksite wellness to ensure all employees are able to access and obtain age-appropriate cancer screenings, smoking cessation, nutrition and educational materials addressing obesity; and
3. **Mental Health:** to establish a Patient to Patient Network for caregivers and caregiver support; and\
4. **Substance Use/Abuse:** to provide education and resources regarding the responsible prescribing and use of opioids in the un-informed surgical population.

These four 2019 priority areas are in line with the priority areas identified in the Hospital's 2016 CHNA and addressed in the implementation strategies and programs that have been implemented since then.

Over the next three years, the Hospital will continue to review and expand programs and interventions based on the identified needs in this assessment.

REVIEW AND APPROVAL

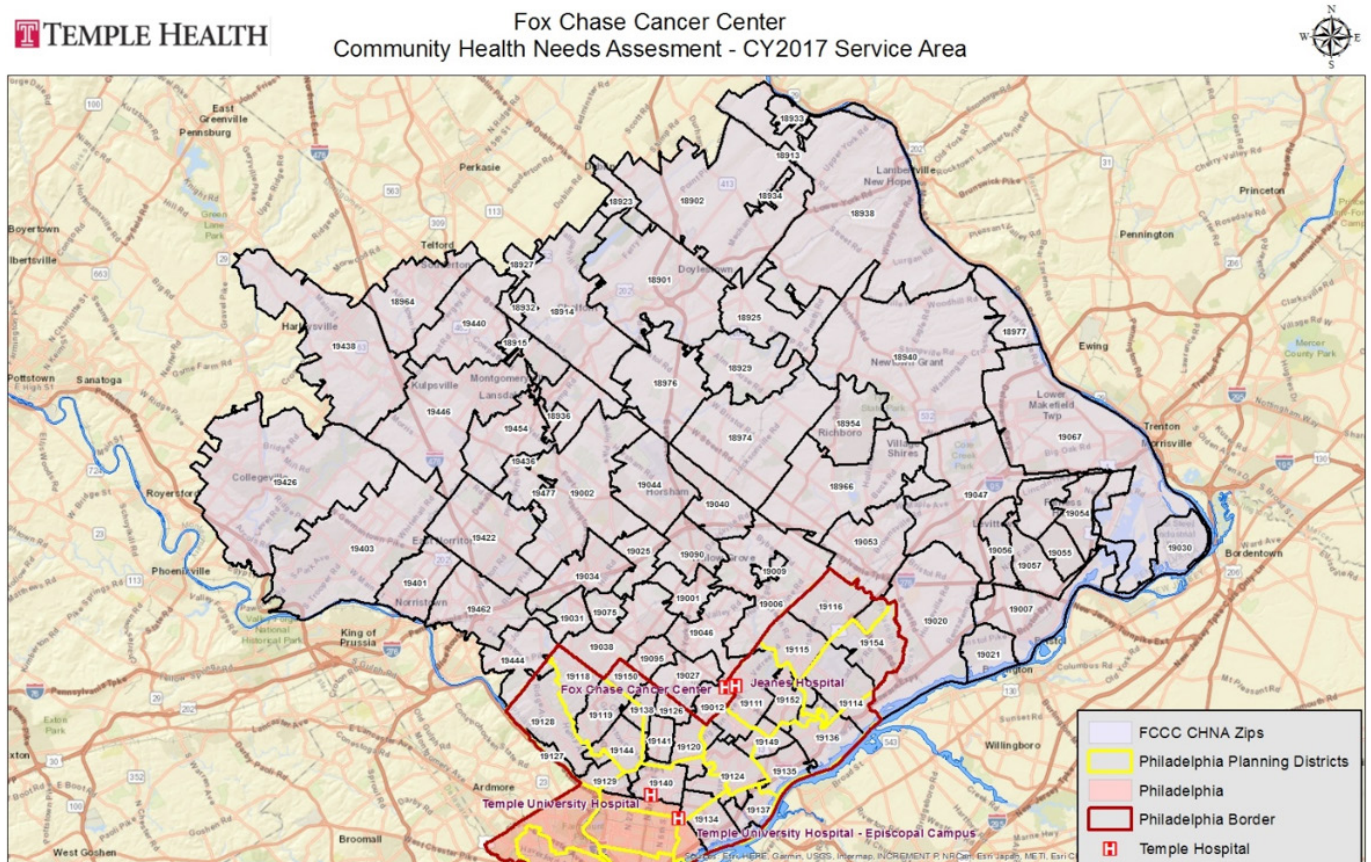

The Fox Chase Cancer Center Board of Director's approved the hospital's Community Health Needs Assessment on May 15, 2019.

COMMUNITY DEFINITION

In compliance with the IRS guidelines at the time of data collection for this assessment, FCCC defined its service territory as the 84 zip codes from which about 50% of its patients are seen on an inpatient or outpatient basis reside. Of those, Philadelphia County has 20 zip codes: 19111, 19114, 19115, 19116, 19119, 19120, 19124, 19126, 19128, 19134, 19135, 19136, 19138, 19140, 19141, 19144, 19149, 19150, 19152, 19154 that largely overlay the City of Philadelphia’s Lower Northeast, Upper North, North, Upper Northwest, and Riverward Planning Districts as set forth in the 2017 Community Health Assessment for Philadelphia, PA prepared by the Department of Public Health. The remaining 64 zip codes are in Central and Lower Bucks County and Lower East Montgomery County. Figure 3 outlines the service territory for FCCC.

METHODOLOGY

FCCC contracted the services of Strategy Solutions, Inc. (SSI) to assist the Hospital with their 2019 CHNA. SSI, facilitated this process following best practices outlined by the Association for Community Health Improvement, an affiliate of the American Hospital Association, and complies with the Internal Revenue Service's (IRS) guidelines (IRS Notice 2011-52) for charitable 501(c) (3) tax-exempt hospitals published in December 2014. The CHNA process included input from individuals representing the broad interests of the communities served by Fox Chase Cancer Center (FCCC), including those with direct knowledge on the needs of the medically underserved, and populations with chronic diseases.

Throughout the nine (9) months beginning in August 2018, SSI worked closely with FCCC to identify and collect primary and secondary data, analyze the results and create the Hospital's needs assessment. **Figure 4** is a summary of the methodology used to create the 2019 FCCC CHNA report.

Figure 4: FCCC 2018-2019 CHNA Methodology Summary

DATA COLLECTION

In an effort to examine the health-related needs of the residents of the FCCC service area and to meet current IRS guidelines and requirements, the study methodology employed both qualitative and quantitative data collection and analysis methods. The Hospital and its consulting team made significant efforts to ensure the entire primary service area, all socio-demographic groups and all potential needs, issues and underrepresented populations were considered to the extent possible. This was accomplished by organizing focus groups and identifying key stakeholders that represented various subgroups in the community described in detail below. In addition, the process included extensive use of data from the City of Philadelphia Department of Health, Pennsylvania Department of Health and Centers for Disease Control and Prevention.

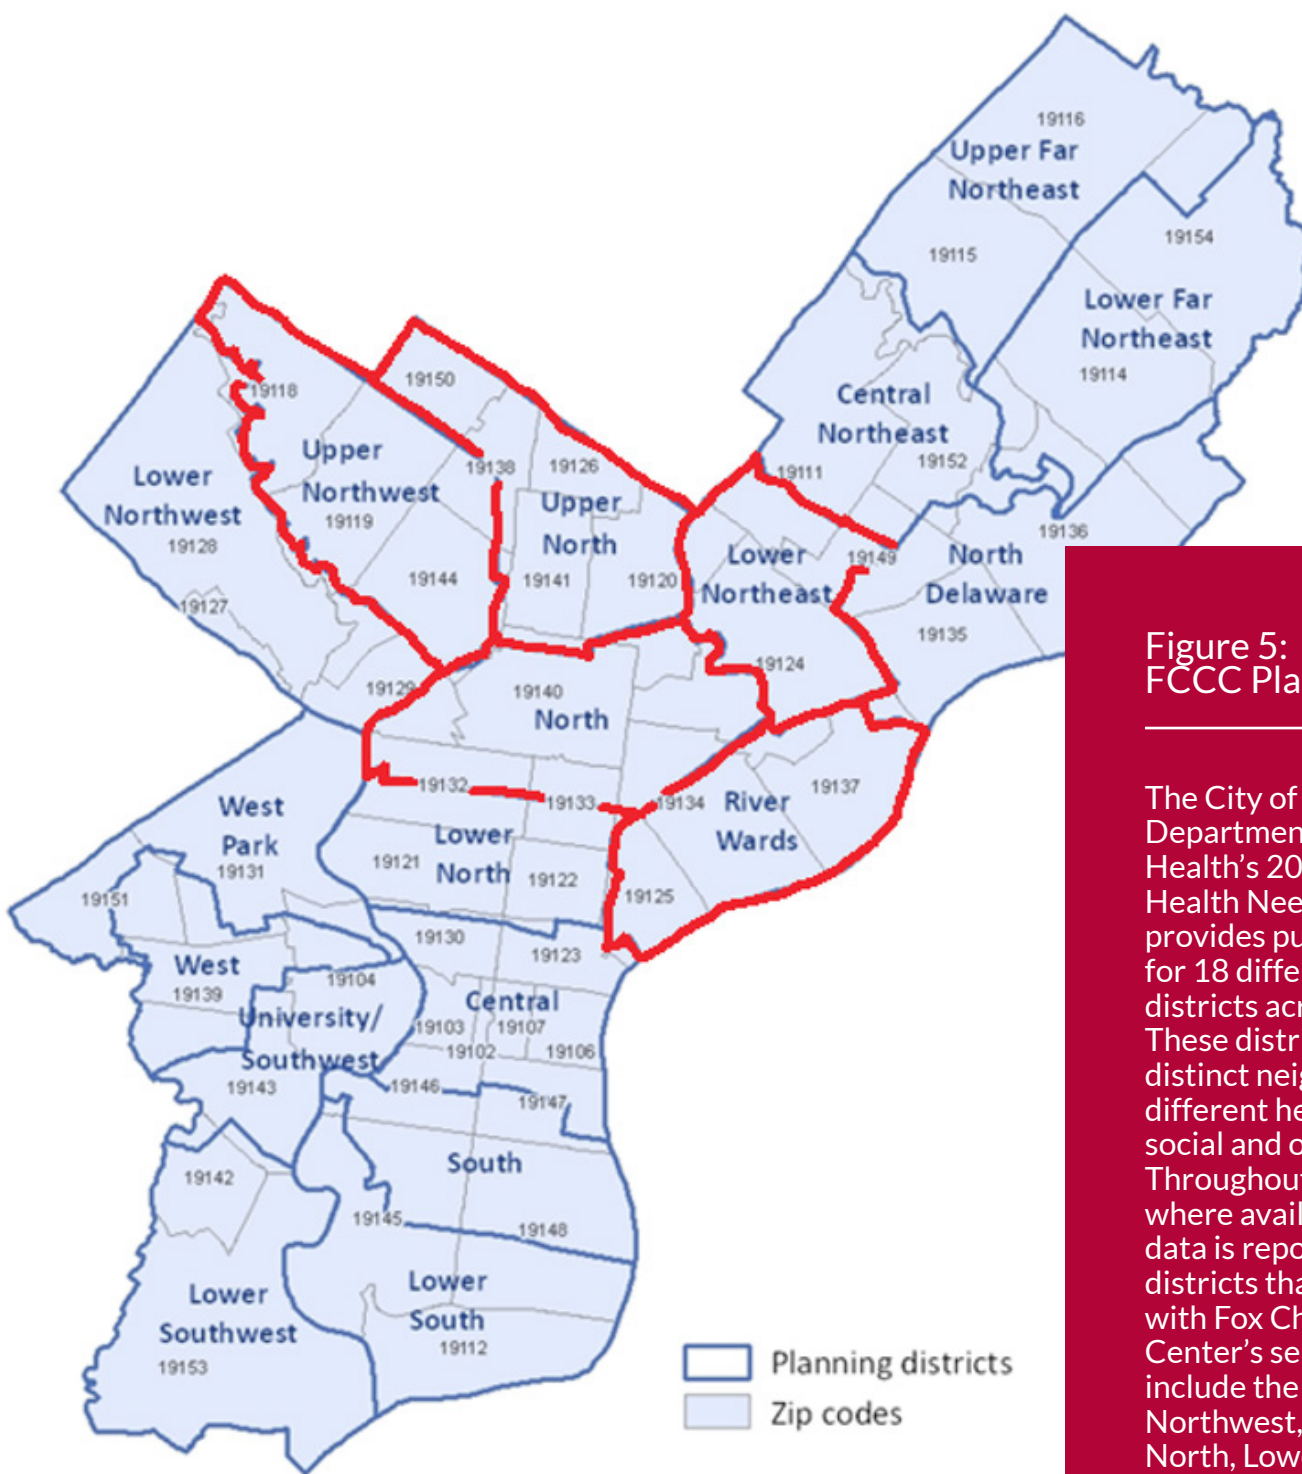

To guide this assessment, the Temple University Hospital System formed a Steering Committee consisting of 15 Hospital leaders experienced with serving the surrounding community. The Steering Committee consisted of representatives from the system as well as each individual Hospital. These included representatives who understood the needs and issues faced by underrepresented groups within the Hospital's service area, including medically underserved populations and low-income individuals, minority groups and those with chronic disease needs. The Steering Committee met bi-weekly between August 2018 and April 2019, with two of these meetings held in person on September 21, 2018 and March 8, 2019. The remaining meetings were held via teleconference. These Steering Committee meetings were conducted to provide guidance on the various components of the CHNA.

The secondary quantitative data collection process included:

- Demographic and socio-economic data from the United States Census Bureau obtained through Claritas-Pop-Facts Premier, 2018, Environics Analytics and IBM Market Expert Demographic Snapshot 2018, from the Claritas Company Projections of the U.S. Census, 2010 Census;
- Disease incidence and prevalence data obtained from the Pennsylvania Departments of Health and Vital Statistics as well as the City of Philadelphia Department of Health;
- Behavioral Risk Factor Surveillance Survey (BRFSS) data collected by the Centers for Disease Control and Prevention;
- American Community Survey; and
- Healthy People 2020 goals from HealthyPeople.gov.

In addition, various health and health related data from the following sources were utilized:

- Pennsylvania Department of Education;
- County Health Rankings (www.countyhealthrankings.org);
- Selected data was also included from the Philadelphia County 2017 PA Youth Survey and the National Survey Results on Drug Abuse – 1975-2013;
- Economic data was obtained through the United States Census Bureau; and
- Fox Chase Cancer Center Tumor Registry Data.

Source: Department of Public Health, City of Philadelphia

Figure 5: FCCC Planning Districts

The City of Philadelphia Department of Public Health’s 2017 Philadelphia Health Needs Assessment provides public health data for 18 different planning districts across the City. These districts represent distinct neighborhoods facing different health, economic, social and other challenges. Throughout this CHNA, where available, public health data is reported for the districts that largely overlay with Fox Chase Cancer Center’s service area, which include the City’s Upper Northwest, Upper North, North, Lower Northeast and River Wards Districts. These districts are outlined in red in Figure 5, left.

TUMOR REGISTRY DATA

In accordance with patient privacy laws, aggregate FCCC Tumor Registry data was included for 2016, 2017 and 2018, including both early and late stage cancers detected by type.

FOCUS GROUP

The Steering Committee identified numerous community stakeholders that represent target populations served by the Hospital within their immediate service area. FCCC staff and SSI developed a focus group facilitation guide to capture community input and feedback on community health status and health needs, access to services and potential solutions. FCCC staff scheduled the Focus Group session to which they invited the identified community stakeholders. SSI staff facilitated the Focus Group and documented responses. For the 2019 CHNA, one focus group was conducted on November 28, 2018 with 19 representatives from key community organizations. See *Appendix B for the Focus Group guide used for this assessment.*

KEY INFORMANT SURVEY

The Steering Committee identified key stakeholders in the community to receive a Key Informant Survey. SSI and FCCC staff developed the Key Informant Survey. This survey was used to obtain vital information about the community from the social and health services providers who serve them. SSI created an electronic survey and link, which FCCC sent out to the identified key informants. The survey was active from December 11, 2018 to January 24, 2019. A total of 80 individuals completed the survey for Fox Chase Cancer Center. See Appendix C for the Key Informant Survey used for this assessment. **Table 2** below outlines the community affiliation of the respondents.

Table 2: Key Informant Survey Respondent Primary Community Affiliation

Community Affiliation	Number	Percent
Non-Profit/Social Service Organization	21	26.6%
Health Care/Public Health Organization	9	11.4%
Education/Youth Services	1	1.3%
Community Member	12	15.2%
Business Sector	8	10.1%
Government/Transportation Sector	5	6.3%
Housing Sector	4	5.1%
Mental/Behavioral Health Organization	1	1.3%
Faith-Based Organization	6	7.6%
Cultural Organization	1	1.3%
Community Based Non-Governmental Organization	5	6.3%
Fox Chase Cancer Center Staff/Employee	12	15.2%
Other (patient, volunteer, law enforcement, utility worker, nurse and public company)	14	17.7%

Source: 2019, Fox Chase Cancer Center, Key Informant Survey, Strategy Solutions, Inc.

COMMUNITY HEALTH SURVEY

FCCC distributed a paper Community Health Survey for Focus Group participants to complete during the Focus Group on November 28, 2018 which was completed by 19 individuals. The survey was designed to obtain insight into personal as well as community health needs, issues and barriers. The SSI team entered the paper surveys into an online data collection tool, SurveyMonkey. See *Appendix D for the Community Health Survey used for this assessment.*

DATA LIMITATIONS

The primary and secondary data collected for this assessment includes several limitations. Much of the secondary data is from the County level and is not specific to the Hospital's service area due to geographic limitations of currently available data. In addition, researchers were limited to the collection of the most recent publicly available data sources of which many are two (2) or more years old. All primary data is also qualitative and does not necessarily reflect a representative sample of the service area since it was collected through convenience sampling.

FEEDBACK FROM PREVIOUS FCCC CHNA REPORT

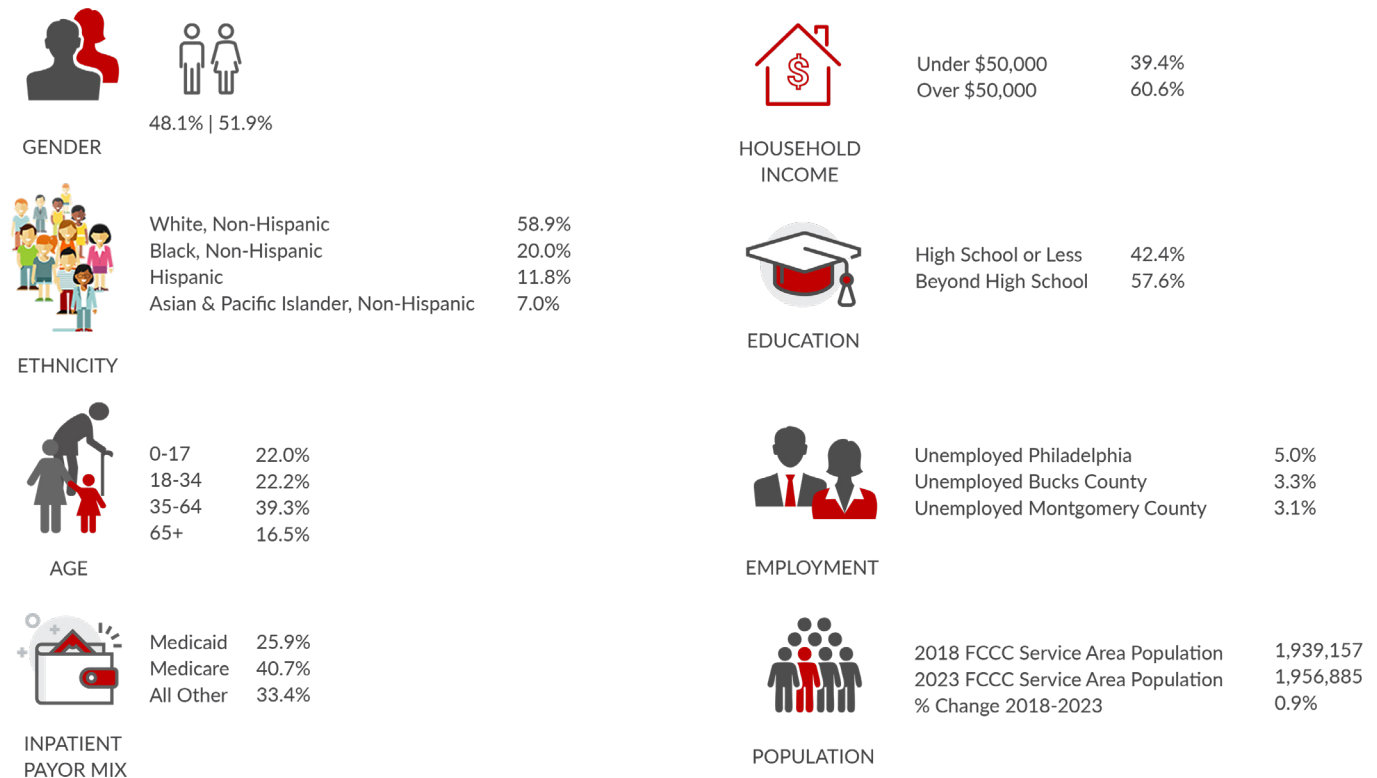

FCCC welcomes questions and comments on its CHNAs through a link provided on its Community Health webpage under Contact Us. No substantive comments have been received through this site since the 2016 CHNA report was published.

DEMOGRAPHICS

Residents of FCCC's immediate service area experience many social and economic challenges as demonstrated by the demographic data described below in **Figure 6**.

Figure 6: FCCC Service Area Demographics Summary

Sources:
 Gender and Marital Status: Claritas - Pop-Facts Premier 2018, Environics Analytics
 Ethnicity, Age and Education: IBM Market Expert Demographic Snapshot 2018, from The Claritas Company projections of the U.S. Census, 2010 Census
 % Below Federal Poverty Level: U.S. Census, 2013-2017 American Community Survey 5-Year Estimate Table S1701, Poverty Status in the Past 12-Months [CY2017]

Over the next 5-years, FCCC's primary service area population is expected to grow by about 0.9%, from 1,939,157 to 1,956,885, which is slightly above the City of Philadelphia's expected growth rate (1.5%).¹ The service area has slightly more Females (51.9%) than Males (48.1%).² The population is also predominantly White (58.9%), which is lower when compared to the State (76.2%), while the percentage of Black residents (20.0%) is twice as high as the State (10.8%).³ In the service area, there is also a higher Hispanic and Asian population when compared to the state.⁴ Throughout the report, indicators that identify Non-Hispanic White, Non-Hispanic Black and/or Non-Hispanic Asian rates will be referred to as White, Black and Asian respectively.

The percentage of the service area population with an education beyond high school (57.6%) is slightly higher when compared to Pennsylvania (53.6%), but below the Nation (59.4%).⁵ In the service area, 14.0% of the families have incomes below the federal poverty level and 39.4% of households have incomes under \$50,000. The percentage of families living in poverty in the service area is comparable to Pennsylvania (13.3%) and the Nation (15.1%).⁶

Table 3 lists the poverty range and unemployment rate for FCCC's service area zip codes. There are 10 zip codes in the City of Philadelphia with over 20% poverty, of those, nine (9) are also experiencing unemployment at a rate of 10% or higher.

Table 3: Fox Chase Cancer Center Poverty and Unemployment Demographics

Zip Code	City	Poverty Range	Unemployment Rate	Poverty Percentage
19149	Philadelphia	>20%	10.9%	20.6%
19129	Philadelphia	>20%	8.5%	20.9%
19138	Philadelphia	>20%	15.4%	24.2%
19124	Philadelphia	>20%	16.0%	30.0%

COMMUNITY & HOSPITAL RESOURCES

Existing health and social services in the service area, and for Southeastern Pennsylvania as a whole, were collected for this report. Information on social services was obtained through the United Way 2-1-1 in Southeastern Pennsylvania and from the Yellow Pages internet search. Existing Hospital and Health System resources can be found in Appendix E, Hospital Resource Listing. The community-based health care and social service resources can be found in Appendix F, Community Resource Listing.

Figures 8 and 9 highlight the major accomplishments that the Hospital made in each of the four health priorities that were outlined in their implementation strategy action plan. FCCC has created yearly implementation strategy updates on the progress made in each of the health priority areas. Please visit <https://www.foxchase.org/updates-fox-chase-cancer-center-implementation-strategy> to access these annual updates.

Figure 8: Evaluation of 2016 CHNA Summary, 1 of 2

DELIVER CANCER EDUCATION AND RESOURCES

For FY17- mid FY19, hosted 185 cancer education sessions with 5,376 participants and educated 11,724 people at health fairs and community events (opportunity to increase awareness of cancer and its symptoms, the role of healthy lifestyle behaviors and the importance of research).

Pre- and post-tests given at education sessions with post-test knowledge increasing (i.e., over 70% increase in knowledge during colorectal cancer presentations that clinical trials are a treatment option for people with cancer).

In FY 2017 and 2018, increased outreach and education to the male population through partnerships and helped to organize a Men's Wellness Day to promote colon cancer - the combined attendance over the 2 years was 324 men with 33 community-based organizations who provided screenings and resources.

PROVIDE PREVENTATIVE CANCER SCREENING SERVICES/PROGRAMS

Utilizing the Mobile Screening Program, provided breast cancer screenings to 7,384 women for FY17- mid FY19; in FY2017 and FY2018, 2,362 women were medically underserved (the goal was to screen 1,000 medically underserved women, which for FY2017 and FY2018, that goal was exceeded).

Four community skin cancer screenings were held to-date with 108 participants.

Two community head and neck screenings were held with 70 people screened through FY19.

To address lung cancer, FCCC began a tobacco treatment program (smoking cessation) in FY2017. Program has been held 7 times and 47 people completed the program for the three years ending FY2019; 11 people decreased the number of cigarettes smoked; 10 people quit smoking during the program or shortly after; and two people obtained a lung cancer screening.

SUMMARY OF PROGRESS ON 2016 CHNA IMPLEMENTATION

Figure 7 below lists the major health priorities the Hospital identified in their 2016 CHNA and decided to concentrate on over three (3) years ending June 30, 2019.

Figure 7: FCCC 2016 CHNA Identified Health Priorities

Figure 9: Evaluation of 2016 CHNA Summary, 2 of 2

INCREASE AWARENESS/ACCESS TO SURVIVORSHIP RESOURCES

Continued the annual Survivorship Celebration with 2,500 attendees for the two years ending FY2018.

FCCC held 11 Together Facing Cancer events with 1,022 participants; cancer topics included: breast, GIST, GYN, lung, leiomyosarcoma, pancreatic, and sarcoma; all programs focused on survivorship.

Published survivorship information in FCCC's publication to the community - Forward - and covered topics such as physical activity and sexual function.

Rebuilt and instituted in FY2017 the institutional infrastructure and processes for survivorship care plan delivery.

In FY2018- mid FY19, FCCC offered a program to survivors called Unite for Her to learn about the benefits of complementary therapies; a total of 167 women were reached with this program

PROVIDE CULTURALLY COMPETENT CARE

Three system-wide Cultural Competence symposiums were conducted for staff members; the themes for the symposiums included Caring for the LGBTQ Community, Caring for the Russian Speaking Community, and Health Disparities, Cultural Competence & Implications for Quality Care for Latino, Asian, African American and Arab communities.

Language services have been fully integrated into FCCC services and are part of the hospital's standard operating procedures.

TUMOR REGISTRY DATA

As seen in **Figure 10**, the FCCC Tumor Registry data over the past three years illustrates the following:

- The highest volume of cancer cases identified include breast, male genital, respiratory, urinary and GI;
- More cases of breast, male genital, urinary, skin, female genital, and other are being diagnosed or found in earlier stages;
- There were less early stage respiratory cases in 2017 as compared to the other 2 years; and
- GI & Respiratory cancers tend to be found/diagnosed in the later stages, compared to other cancers.

Figure 10: Tumor Registry Data, 2016-2018

GENERAL FINDINGS

Based on analysis of primary and secondary data, the following community health needs and issues were identified:

- Access to Quality Health Services and Barriers to Healthcare;
- Chronic Disease;
- Mental Health;
- Substance Use Disorder/Tobacco Use;
- Physical Activity and Nutrition;
- Healthy Environment;
- Healthy Women, Mothers, Babies and Children; and
- Infectious Disease.

Each of the above topics are discussed in more detail on the pages that follow. Each topic is broken down into the following sections:

What the Community is Saying, which reflects input from participants in the primary data collection;

Opportunities for Improvement, which were determined based on the identification of negative trends over time and/or through a comparison of local secondary data to State and national data as well as the Healthy People 2020 benchmarks and/or where significant disparities exist even if data has improved in recent years; and

Areas of Improvement, which were included based on the identification of positive trends over time and/or through a comparison of local secondary data to the State and national data as well as the Healthy People 2020 benchmarks.

A full listing of all secondary indicators can be found in Appendix A.

ACCESS TO QUALITY HEALTH CARE

Access to comprehensive, quality health care is important for the achievement of health equity and for increasing the quality of life for everyone in the community. In the FCCC service area, as in many other communities in the United States, there are individuals who cannot access health care. The public health, Focus Group, Community Health Survey, and Key Informant Survey data show the following needs and issues related to access:

- Access to mental health services; mental health aspects that are part of chronic conditions;
- Education for people diagnosed with cancer;
- Health insurance issues of high deductibles/copays/affordability of health care plans/uninsured and underinsured;
- Health care costs;
- Not enough money;
- Transportation;
- Health literacy;
- Literacy;
- Availability of providers (number of providers, convenient hours, wait times to schedule an appointment);
- Knowing what services are available and how to access these services, including navigation;
- Financial resources;
- Safe and affordable housing; homelessness;
- Lack of trust in the health system; and
- Language and cultural accessibility.

WHAT THE COMMUNITY IS SAYING

When asked to rate the health status of the community, 83% of Focus Group participants rated the health status of the community as fair or poor as shown in **Figure 11**. When asked to explain the rating, participants noted that they worked with populations that had barriers to care, who are struggling with a variety of health challenges as well as dealing with issues such as literacy, housing, safety and transportation, which affects their overall health.

As shown in **Figure 12**, all Focus Group participants (100%) identified inconsistent insurance as a barrier to care. Focus Group participants also noted that patients often have to fight their insurance companies for weeks before they are able to get the care they need. Most also identified caregiver burnout (88.9%), financial burdens (83.3%) and navigation of care (83.3%) as barriers. Focus Group participants talked about the need for comprehensive care coordination noting it is difficult for a patient to understand how to access all the available community resources. It is further challenging to navigate care for those with a rare form of cancer or another chronic condition. Furthermore, Focus Group participants talked about the need for general education to increase awareness of available services as well as education on their form of cancer and various treatment modalities.

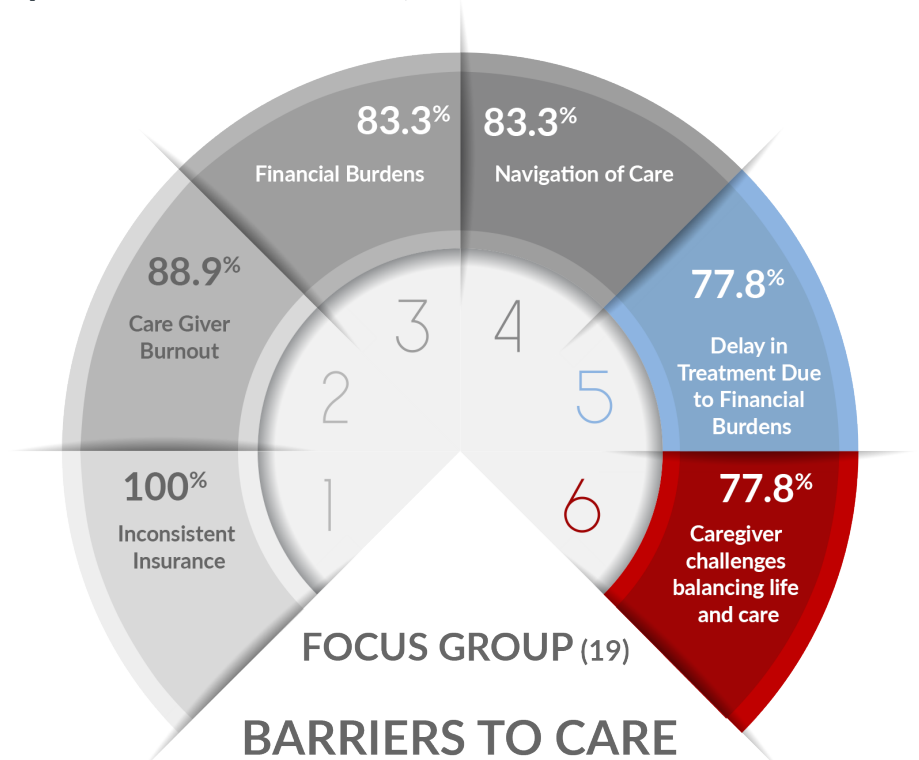

Figure 11: Focus Group Rating of Community Health Status

Source: 2018 Fox Chase Cancer Center, Focus Group, Strategy Solutions, Inc.

Figure 12: Focus Group Participants: Barriers to Care, N=19

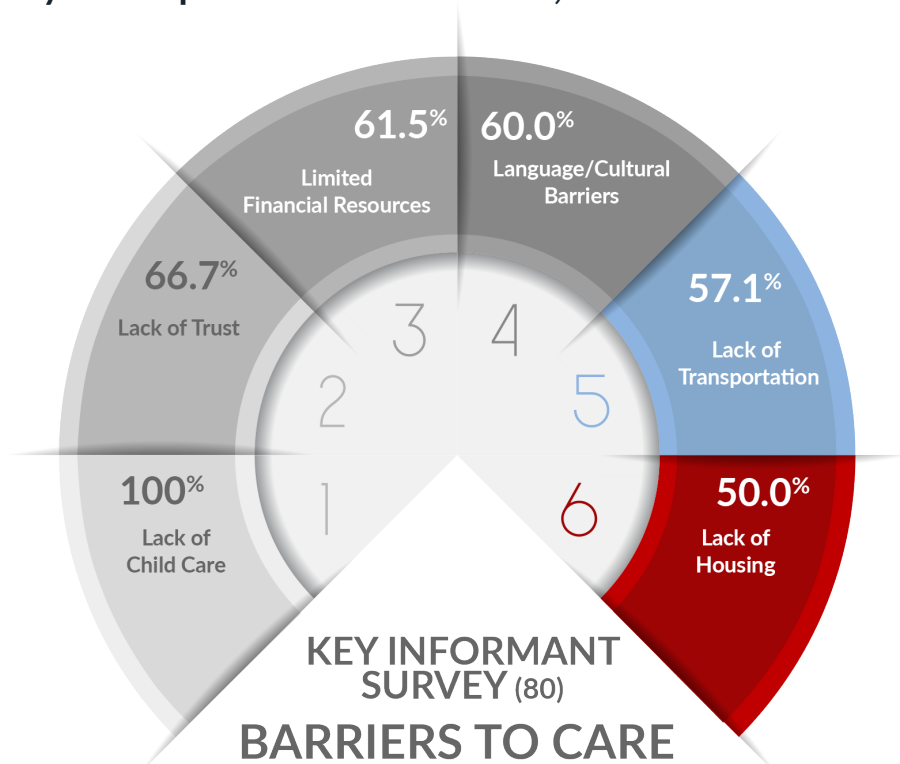

Source: 2018 Fox Chase Cancer Center, Focus Group, Strategy Solutions, Inc.

As shown in **Figure 13**, all of the Key Informant Survey respondents identified lack of childcare as a barrier to care (100%). Key Informant Survey respondents also identified:

- Lack of trust;
- Limited financial resources;
- Language/cultural barriers;
- Lack of transportation; and
- Lack of housing.

Key Informant Survey respondents talked about the cost of care which includes medications, insurance, co-pays and deductibles. This group also added that this financial challenge often prohibits people in the community from seeking needed health care services.

Figure 13: Key Informant Survey Participants: Barriers to Care, N=80

Source: 2019, Fox Chase Cancer Center, Key Informant Survey, Strategy Solutions, Inc.

According to participants of the Key Informant Survey, the top five (5) underserved populations include:

- Black/African American;
- Uninsured/ Underinsured;
- Homeless;
- Low Income/ Poor; and
- Seniors/Aging/ Elderly.

According to Community Health Survey respondents, most (72.3%) identified inconvenient office or clinic hours as a barrier to seeking care. Cost of care was also a barrier with a little more than one-third (36.6%) indicating they do not seek medical care due to the cost of care, while 18.2% do not seek care due to cost of their co-pay.

OPPORTUNITIES FOR IMPROVEMENT

HEALTH AS FAIR OR POOR

When looking at the access indicators from the Pennsylvania Behavioral Risk Factor Surveillance Survey (BRFSS), a significantly higher percentage of Philadelphia County residents rated their health as Fair or Poor (21.0%) when compared to the State (17.0%).⁸ The percentage is even higher (30.0%) for those age 45-64.⁹ In Bucks and Montgomery Counties, 14.0% of residents rated their health as Fair or Poor.¹⁰

Almost a third of the residents of the North District of the City of Philadelphia (32.5%) rated their health as Fair or Poor, as did 28.4% of Lower Northeast Residents, 28.2% of River Wards residents and 25.5% of Upper North residents.¹¹

IMPACT OF POOR HEALTH

A significantly higher percentage of Philadelphia County residents reported Poor Physical or Mental Health Prevented Usual Activities in the Past Month (29.0%) when compared to the State (24.0%).¹²

YEARS OF POTENTIAL LIFE LOST

Years of Potential Life Lost Before Age 75 is an age-adjusted rate per 100,000 population. It is based on the average years a person would have lived if he or she had not died before age 75. In the City of Philadelphia (9,521), the North (12,861), River Wards (12,506), Lower Northeast (11,572), Upper North (8,832), and Upper Northwest (8,535) Districts have some of the highest rates of Years of Potential Life Lost in Philadelphia County.¹³

HEALTH INSURANCE/AFFORDABILITY

Affordability of health care services is a problem for many Philadelphia residents, with 15.0% indicating that they did not seek care in the past year due to cost. This is significantly higher than the State (11.0%) and higher than Bucks and Montgomery Counties (5.0%).¹⁴ The percentage for Males (16.0%), 45-64-year-old (19.0%) and obese (17.0%) residents of Philadelphia County were also significantly different.¹⁵

The percentage of Adults age 18-64 who did not seek care due to cost in the River Wards District (25.7%) was higher than the North District (19.8%), as well as the City of Philadelphia (13.4%) as a whole.¹⁶

“Quality of care is limited when Medicaid is the only option. There are many places that are sliding scale fees, but that is too expensive for many people. Navigating systems, finding who or how to pay, what is covered are all issues facing health care in Philadelphia”

Key Informant Survey Respondent

HEALTH INSURANCE AND MEDICAID

A significantly higher percentage of Adults ages 18-64 in Philadelphia County report that they have No Health Insurance (14.0%), compared to the statewide percentage of 9.0%.¹⁸ The percentage in Bucks and Montgomery Counties is only 5.0%.¹⁹ The percentages are significantly higher for Males (18.0%) and 18-44-year olds (16.0%) in Philadelphia County while they are significantly lower for Females age 18-64 in Bucks County (2.0%), Whites age 18-64 (3.0%), and Married residents of Montgomery County (1.0%).²⁰

For the years 2014/15, the percentages of Adults age 18-64 with No Health Insurance for the North District (16.6%) and Hispanics (24.6%) are higher than the City of Philadelphia overall (12.4%).²¹ For the same time period, Adults age 18-64 who are covered by Medicaid in the North District (40.9%) is almost double the percentage for Adults in the City of Philadelphia overall (22.1%),²² Black (32.4%) and Hispanic (23.5%) Adults who have Medicaid are also higher than the City of Philadelphia overall.²³

PERSONAL CARE PROVIDER

Almost one in five (18.0%) of Philadelphia County residents indicated in the statewide BRFSS that they have No Personal Health Care Provider, which was significantly higher than the State overall (14.0%).²⁴

SCREENINGS

Although overall, the percentage of women age 50-74 receiving Mammograms in the past two years (2014/15) was 82.5%, the percentage of White Women receiving a Mammogram was only 76.2%.²⁵

AREAS OF IMPROVEMENT

SCREENINGS

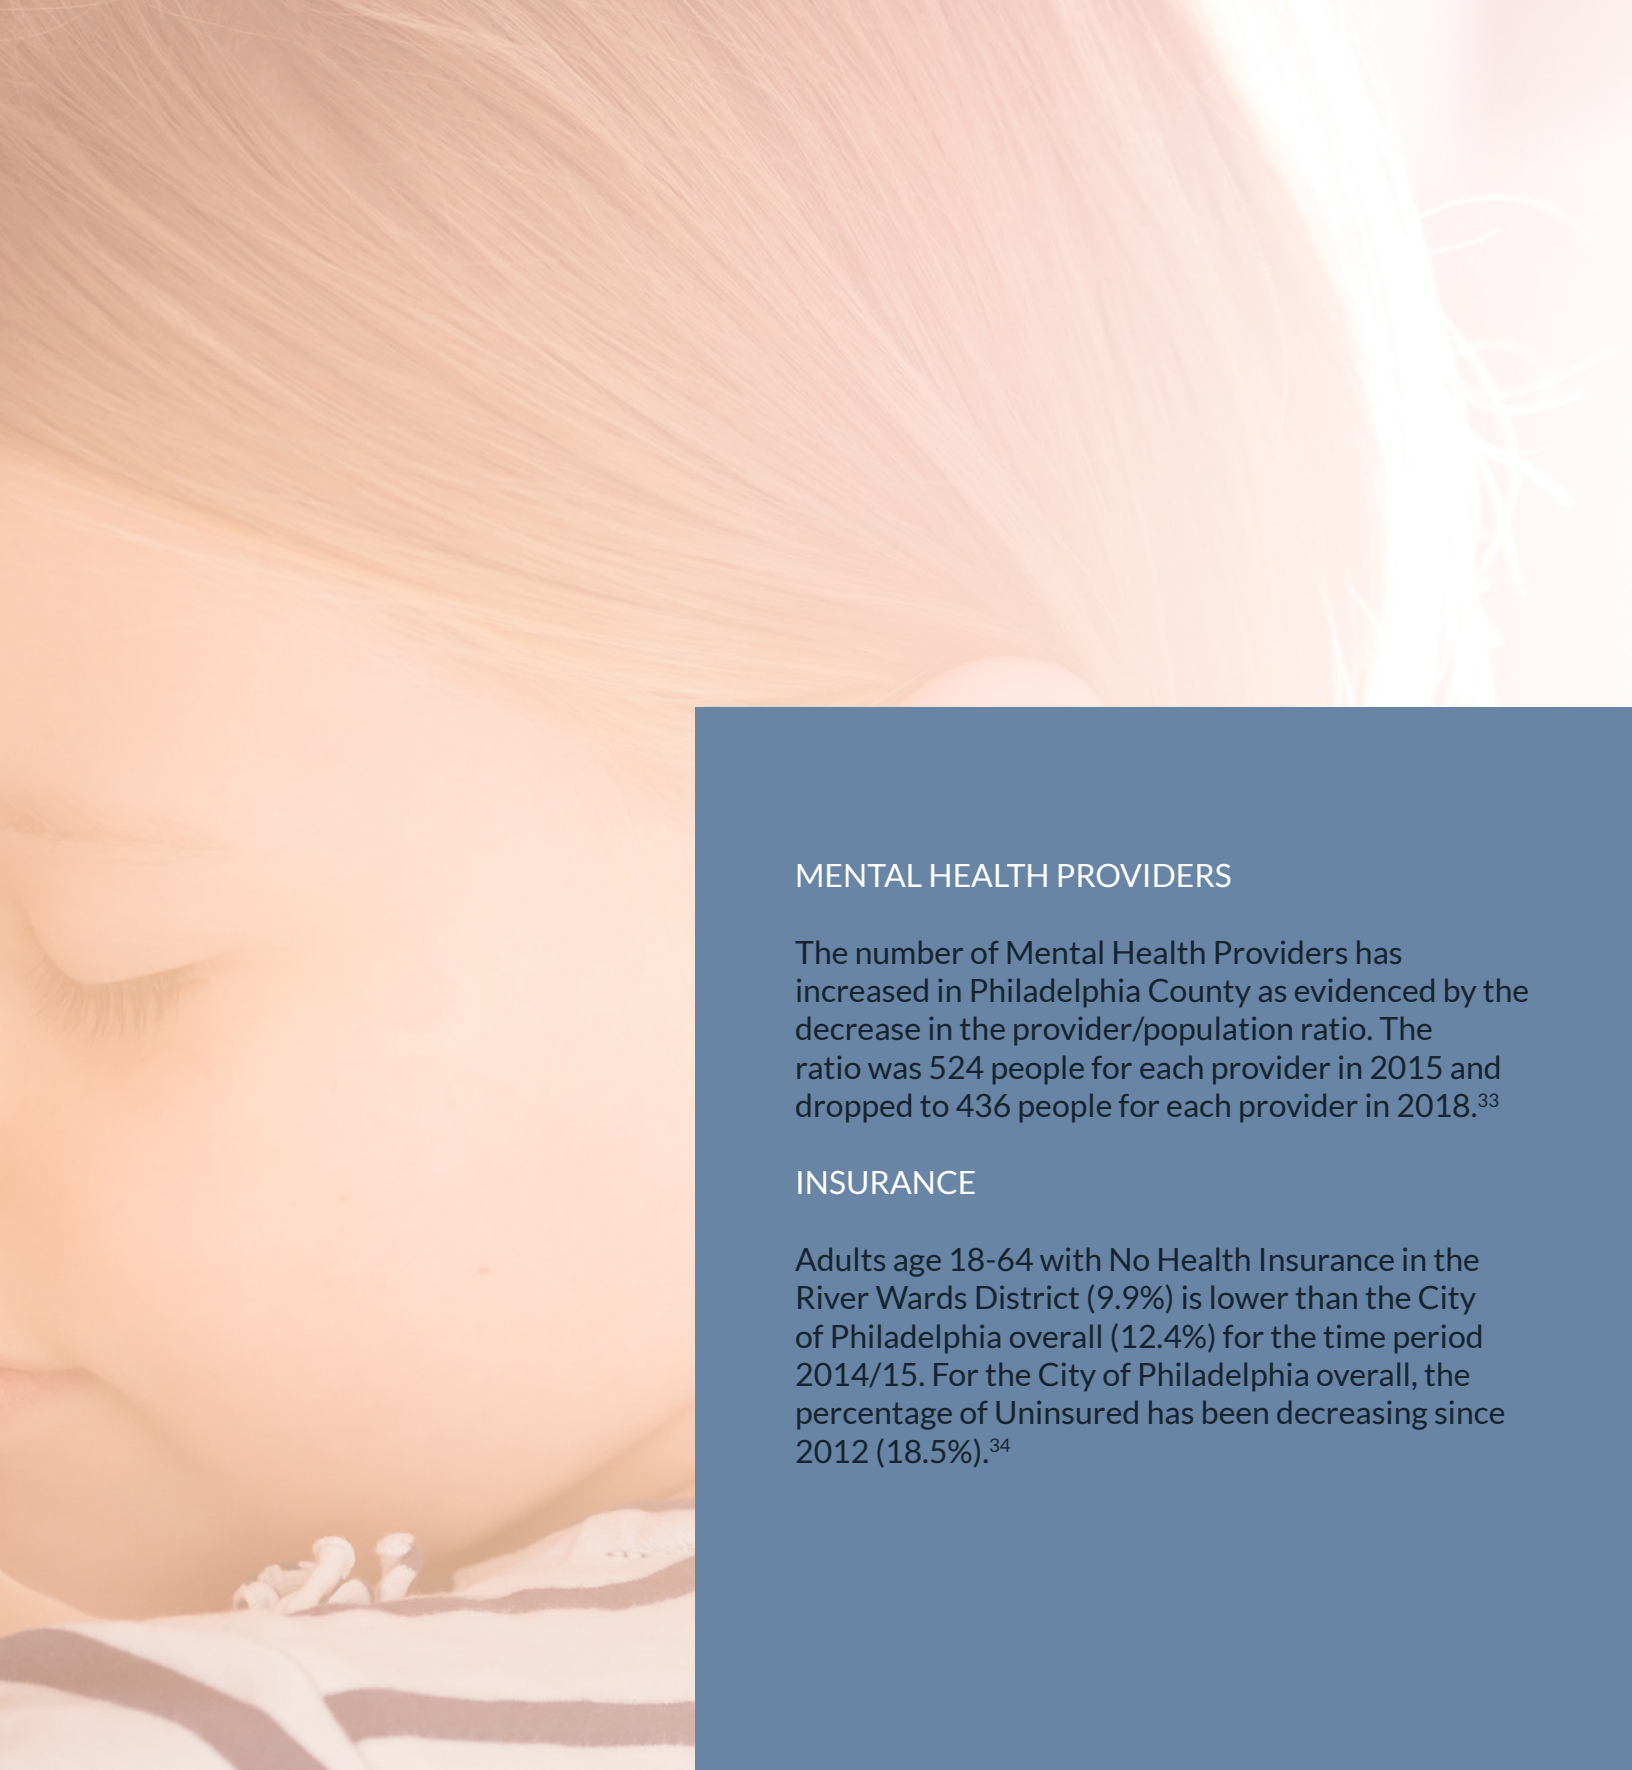

The percentage of Adults reporting that they had a Routine Checkup in the past two years in 2015-2017 (87.0%) has increased from 2011-2013 (85.0%). This was slightly higher than the state (85.0%).²⁸

Since 2011, the percentage of women in Philadelphia County appropriately receiving Mammograms has increased from 54.1% to 62.2% in 2018, although the percentage was lower than the overall State percentage of 64.8%.²⁹ The percentage of women receiving a Mammogram is 66.4% in Bucks County and 69.9% in Montgomery County, slightly above the State percentage (64.8%).³⁰

The percentage of residents Ever Tested for HIV, Ages 18-64 (65.0%) has increased since 2011 (63.0%) and was significantly higher than the State (41.0%).³¹

The percentage of Adults age 50-74 years reporting ever having had a Colonoscopy or Sigmoidoscopy has increased from 54.6% in 2002 to 72.6% in 2014/15.³²

MENTAL HEALTH PROVIDERS

The number of Mental Health Providers has increased in Philadelphia County as evidenced by the decrease in the provider/population ratio. The ratio was 524 people for each provider in 2015 and dropped to 436 people for each provider in 2018.³³

INSURANCE

Adults age 18-64 with No Health Insurance in the River Wards District (9.9%) is lower than the City of Philadelphia overall (12.4%) for the time period 2014/15. For the City of Philadelphia overall, the percentage of Uninsured has been decreasing since 2012 (18.5%).³⁴

BARRIERS TO HEALTHCARE

Social Determinants of Health (SDoH) is a relatively new term in health care. According to the World Health Organization (WHO), SDoH are “the conditions in which people are born, grow, live, work and age. These circumstances are shaped by the distribution of money, power and resources at global, national and local levels” and often determine the access to and quality of medical care that individuals receive.

For the 2019 CHNA, the Hospital leadership and Steering Committee were interested in the barriers related to the social determinants of health that the community is facing that was preventing them from obtaining medical services.

Specific barriers related to each of the topical areas of the report are listed in those sections.

Focus group participants and Key Informant Survey respondents identified the following barriers to care:

- Lack of culturally competent care/Communication;
- Transportation;
- Health Literacy;
- Hopelessness when diagnosed; and
- Child Care.

Resources needed to improve access to care identified by respondents and participants include:

- Navigation services/triage;
- Prevention and wellness services;
- More education for people diagnosed with Cancer;
- More information about palliative care;
- Discharge planning and care management;
- Financial assistance;
- Complementary medicine;
- Food;
- Education;
- Community ambassadors;
- Less restricted, increased funding;
- Free and affordable health care;
- Free and lost-cost screening; and
- Low cost transportation.

CHRONIC DISEASE

Conditions that are long-lasting, in remission, relapse, and have continued persistence, are categorized as chronic diseases. Public health data, Key Informant Survey respondents and Focus Group participants mentioned the following as needs and issues related to chronic disease:

- Cancer incidence and mortality;
- Heart disease;
- Coping and mental health issues related to cancer diagnosis;
- People diagnosed in later stages;
- Obesity;
- Diabetes;
- Food insecurity leads to diabetes; and
- Heart disease continues to be a leading cause of death

WHAT THE COMMUNITY IS SAYING

Obesity, Diabetes, Coping with Cancer Diagnoses, Mental Health Issues Related to Cancer Diagnoses, Heart Disease, and Food Insecurity were identified by Key Informant Survey respondents as the overall top community health issues. Focus Group participants identified Obesity, Coping with Cancer Diagnoses and People diagnosed in later stages as top needs and issues related to Chronic Disease.

Almost half of the Community Health Survey respondents (42.1%), identified Heart Disease and Diabetes as top community health concerns.

Barriers to care related to Chronic Diseases identified by primary research participants included:

- Navigating the system long term;
- Lack of income (not enough money);
- High co-pays;
- Literacy;
- Transportation;
- Language barriers; and
- Lack of insurance coverage.

Figure 14 shows the top four most frequently mentioned needed services identified by Key Informant Survey respondents and Focus Group participants.

Figure 14: Key Informant Survey Respondents and Focus Group Participants: Top Four Needed Services Related to Chronic Disease

Sources:
 2018, Fox Chase Cancer Center, Focus Group, Strategy Solutions, Inc.
 2019, Fox Chase Cancer Center, Key Informant Survey, Strategy Solutions, Inc.

Other needed services identified by primary research participants related to chronic diseases included:

- Peer support;
- Addressing the LGBTQ community;
- Respite care,
- Distribution of health information; and
- Connected community events.

OPPORTUNITIES FOR IMPROVEMENT

HEART

While the percentage of Adults age 35 and older Who Have Ever Been Told They Had a Heart Attack in Philadelphia County has remained fairly consistent and in 2015-2017 (7.0%) was comparable to the State (7.0%), the percentage was almost double that of the Nation (4.4%).³⁶ The percentage is 6.0% in Montgomery County and only 3.0% in Bucks County.

Although the Heart Disease mortality rate has decreased in Philadelphia County in 2016 (215.8), it remains significantly higher than the State (175.8).³⁷

Despite decreasing from 2011 (155.2) to 2016 (146.3), the Coronary Heart Disease mortality rate per 100,000 in Philadelphia County in 2016 was also significantly higher than the State (107.6), and the Nation (126.2). It was also well above the Healthy People 2020 Goal (103.4).³⁸

While continuing to be significantly lower than the State, the rate in Montgomery County (95.5) has increased over the past few years.

The Cardiovascular mortality rate per 100,000 in Philadelphia County also decreased from 2011 (289.7) to 2016 (274.1) but remains significantly higher than the State (225.8).³⁹ The rate in Montgomery County, while significantly lower than the state rate, has increased from 194.2 in 2011 to 200.3 in 2016.

The Heart Disease (215.8) and Cardiovascular (274.1) mortality rates in Philadelphia County are also significantly higher than the State rates (175.8 and 225.8 respectively).⁴⁰

The overall Premature (under age 65) Cardiovascular Disease mortality rate for the City of Philadelphia was 60.6, while the rate among Black City residents was 78.5 (2014). The City’s North District (88.6), River Wards District (70.5), Lower Northeast (69.8), Upper Northwest (66), and Upper North (61.5) rates are all higher than the City of Philadelphia rate overall.⁴¹

The percentage of Adults who have ever been told that they have Hypertension has increased over the past fifteen years from 31.3% in 2000 to 38.2% in 2014/15 for the City of Philadelphia overall. The percentage is higher for Black residents of the City (48.0%), and the Upper North (47.1%) and North (41.7%) Districts, while the River Wards District (30.6%) and Upper Northwest (36.6%) and Lower Northeast (35.3%) were lower than the City overall.⁴²

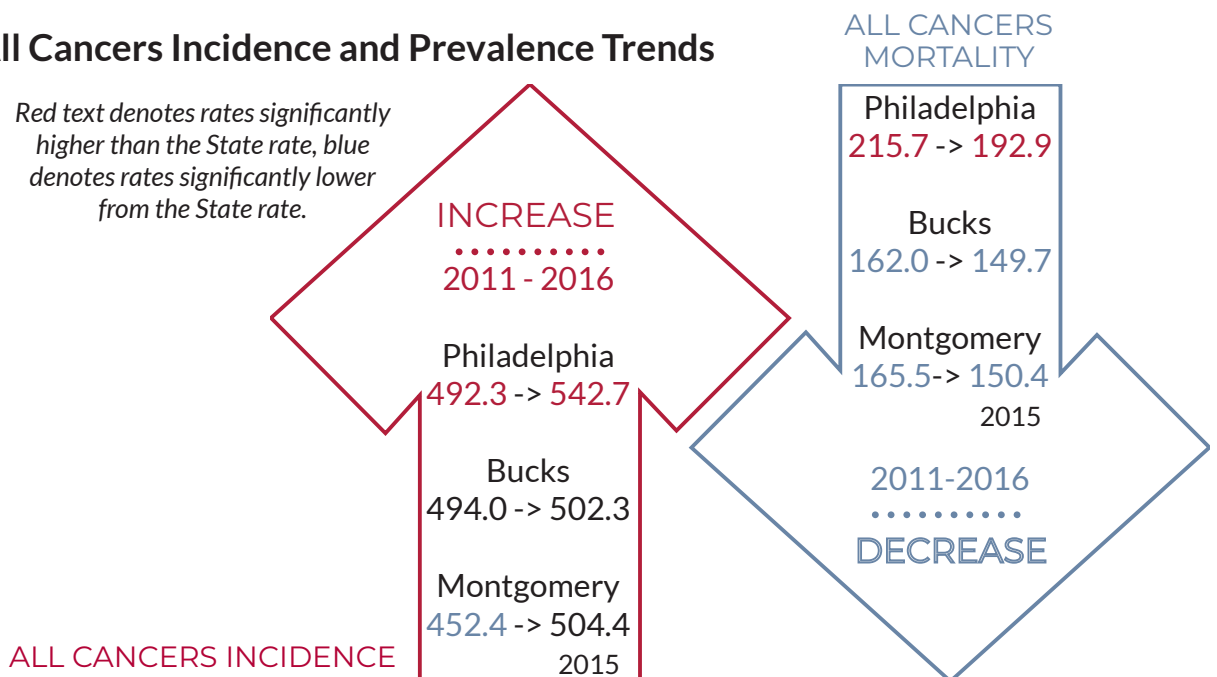

STROKE

The Cerebrovascular mortality rate in 2016 for Philadelphia County (42.1) was significantly higher than the State rate (36.8) even though the rate has decreased since 2011 (49.1).⁴³

CANCER

Figure 15 shows the incidence and mortality trends for All Cancers.

Figure 15: All Cancers Incidence and Prevalence Trends

Source: Department of Health Informatics, Pennsylvania Department of Health, 2011-2016.

The incidence rate for All Cancers in Philadelphia County has increased from 492.3 in 2011 to 542.7 in 2016. The County rate is significantly higher than the State rate (474.1). The mortality rate for All Cancers in Philadelphia County has decreased from 215.7 in 2011 to 192.8 in 2016 but is still significantly higher than the State (158.7).⁴⁴ The rate is also higher than both the US rate (158.7)⁴⁵ and the Healthy People 2020 goal (161.4).⁴⁶

In Bucks County, the incidence rate for All Cancers has increased between 2011 and 2016 from 494.0 to 502.3. In Montgomery County, the incidence rate for All Cancers has increased from 452.4 in 2011 to 504.4 in 2016. The rate is now significantly higher than the State (474.1) and the US (437.7).

The mortality rate for All Cancers in Bucks County has decreased from 162.0 in 2011 to 149.7 in 2016 and is significantly lower than the state (158.7) and the US (158.7). In Montgomery County, the mortality rate for All Cancers has declined from 165.5 in 2011 to 150.4 in 2016. The rate has been consistently significantly lower than the State (164.0 in 2016) and the US (158.7).

The incidence rate for All Cancers in The City of Philadelphia in 2016 was 492.3, which was significantly higher than the State rate (474.1).⁴⁷ The Cancer Mortality (All Causes) for the City was significantly higher (192.8) for all races than the State (164.0).⁴⁸ The rate among the Black population (214.5) was significantly higher than the State rate (198.7).⁴⁹ The City's North (250.3), River Wards (240.9), Lower Northeast (205.8), Upper North (200.7), and Upper North (198.4) Districts are all higher than the City overall.⁵⁰

AREAS OF OPPORTUNITY

Although the percentage of Adults in Philadelphia County reporting being a current smoker decreased from 25.0% in 2011-2013, to 22.0% in 2015-2017, the rate was still significantly higher than the State (18.0%).⁵¹

While the Bronchus and Lung Cancer incidence rate per 100,000 in Philadelphia County has decreased from 2011 (81.5) to 2015 (75.8), the rate in 2015 was significantly higher when compared to the State (63.2).⁵² The available US rate was 2014 (50.8) and for that year, Philadelphia County (77.2) was higher than the Nation.⁵³ The incidence rate in Bucks County in 2015 was 59.5 while the rate in Montgomery County was 52.4, significantly lower than the State rate.⁵⁴

The Bronchus and Lung Cancer mortality rate for 2016 (50.9), although decreasing since 2011 (58.3), was still significantly higher than the State rate (40.9).⁵⁵ The rate in Bucks County in 2016 is 35.6 and in Montgomery County is 34.4. Both are significantly lower than the state rate.⁵⁶

The Colorectal Cancer incidence rate per 100,000 in 2015 in Philadelphia County (45.3) was significantly higher when compared to the State (41.9) and the Healthy People 2020 Goal (39.9), even though the rate has decreased since 2011 (51.3).⁵⁷ The rate in Bucks County is 41.1 and in Montgomery County is 34.7, which is significantly lower than the State.⁵⁸

The Colorectal Cancer mortality rate in 2016 (19.4) was also significantly higher than the State rate (14.7)⁵⁹ and the Healthy People 2020 Goal (14.5).⁶⁰ The rate for Women (17.0) was significantly higher than the State rate (12.2).⁶¹ In Bucks County, the rate for Whites (11.5) was significantly lower than the State rate, and the rate for White Females was only 7.8.⁶²

The Ovarian Cancer incidence rate increased in Bucks County from 2011 (13.1) to 2015 (15.0) as did the rate in Montgomery County from 14.1 to 14.9. The 2015 rate is significantly higher than the State (11.6).⁶³

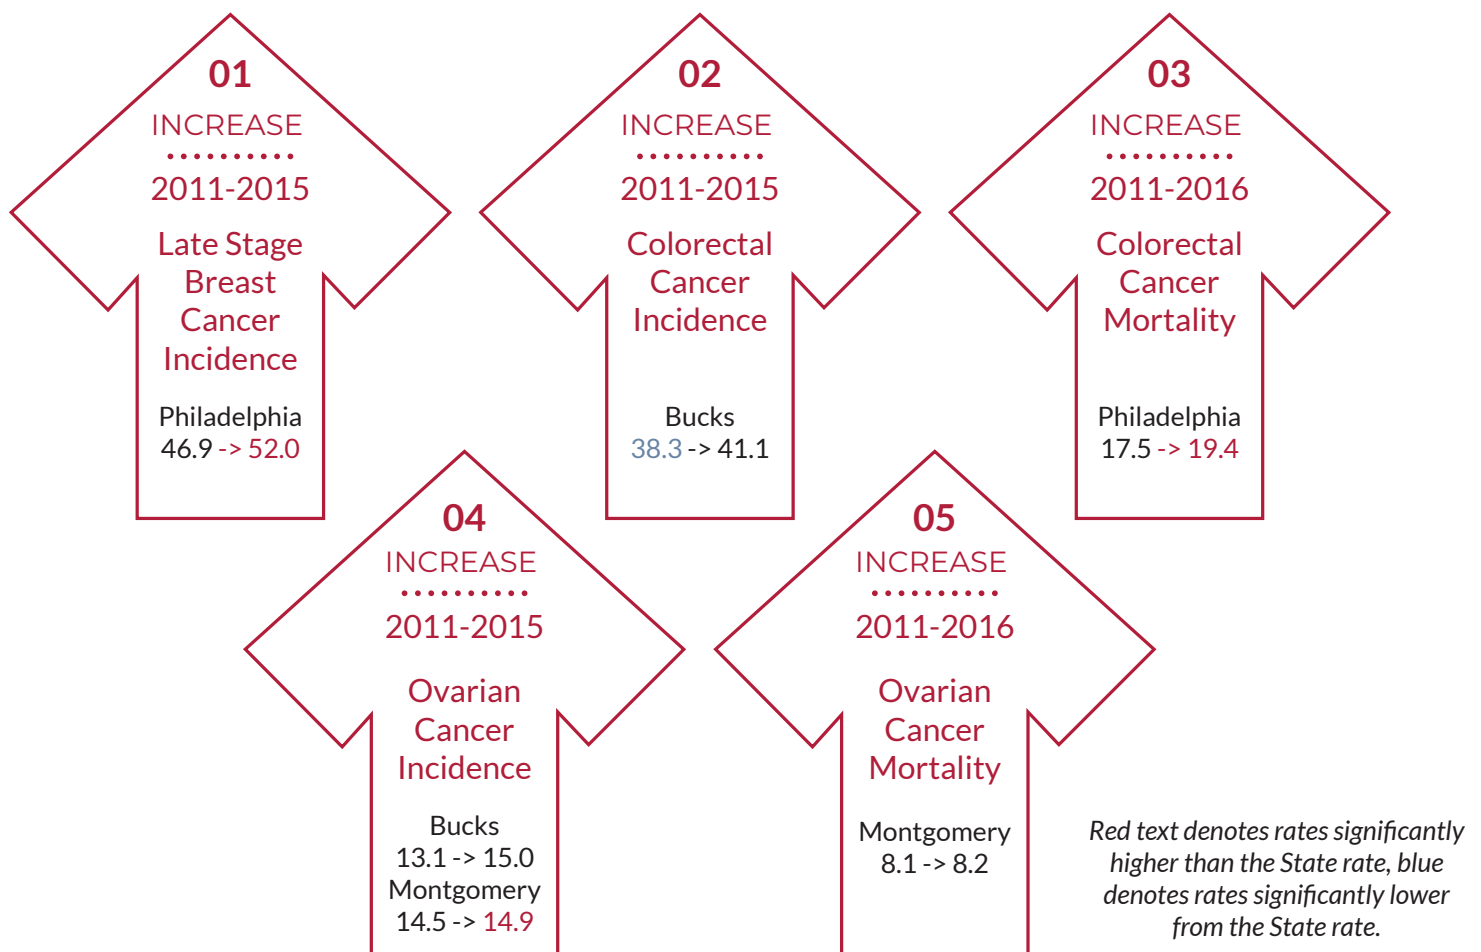

The Ovarian Cancer mortality rate increased slightly in Montgomery County from 8.1 in 2011 to 8.2 in 2015 and is slightly higher than the state rate (6.8).

The Prostate Cancer incidence rate for Philadelphia County in 2015 (136.3) was significantly higher than the State rate (104.4), although it has been decreasing since 2011 (179.8).⁶⁴ The 2015 rate in Bucks County was 114.6 and 112.2 in Montgomery County, both lower than the State.⁶⁵

The Prostate Cancer mortality rate for Philadelphia County also decreased from 36.1 in 2011 to 30.7 in 2016. However, the rate was still significantly higher than the State (19.2).⁶⁶ The rate in Bucks County in 2015 was 19.5 and 17.5 in Montgomery County for the same year; both are lower than the State.⁶⁷

Cancer of the Liver and Bile Ducts mortality rate for All Races in Philadelphia County (11.5). In 2016 was significantly higher than the State rate (6.5). The County also has significantly higher rates for Males (18.1 vs. 9.8), Females (6.6 vs. 3.6) and the White population (8.3 vs. 5.7).⁶⁸ The rate for Bucks County was 5.7 and Montgomery County was 6.2.⁶⁹

Figure 16: FCCC Cancer Summary – Opportunities for Improvement

Source: Department of Health Informatics, Pennsylvania Department of Health, 2011-2016.

DIABETES

The 2012-2015 three-year percentage for Diabetes prevalence in the Upper North (20.7%), North (18.6%), Lower Northeast (18.4%) and River Wards (16.5%) Districts are higher than the City of Philadelphia (15.4%) as a whole.⁷⁰ The Black (18.8%) percentage for Diabetes prevalence is also higher than the City overall for the same time period.⁷¹

The Diabetes mortality rate in Bucks County has increased from 13.4 in 2011 to 17.8 in 2016, while the rate in Montgomery County is only 11.0% and was significantly lower than the State rate (20.2).⁷² While the rate has been increasing in Bucks County, the rate for Females (10.7) is significantly lower than the State, while the rate for White Females is even lower at 10.4. In Montgomery County, the rates for Whites (10.6), Males (12.7), White Males (11.5) and White Females (10.2) are all significantly lower than the State. In Philadelphia County, the overall rate for Blacks (26.3) and for Black Females (20.9) are significantly lower than the State.⁷³

ASTHMA

The age-adjusted rate of Hospital discharges with a primary diagnosis of Asthma per 10,000 children 18 years and under for the Districts in FCCC's service area is available by zip code. For zip code 19140 in the North District for 2013-2015, the rate was 128.1, more than double the rate for the City of Philadelphia overall (59.5). Zip code 19134 (114.1) in the River Wards District and 19124 in the Lower Northeast District (104.1) were also almost double the City rate. Zip code 19129 in the Upper North District (92.1) was also higher than the City overall.⁷⁴

AREAS OF IMPROVEMENT

HEART

The Heart Disease mortality rate in Bucks (137.5) and Montgomery Counties (146.0) has decreased over the past five years and in 2016 was significantly lower than the State (175.8)⁷⁵ and is also lower than the Nation (218.0; 2015).⁷⁶

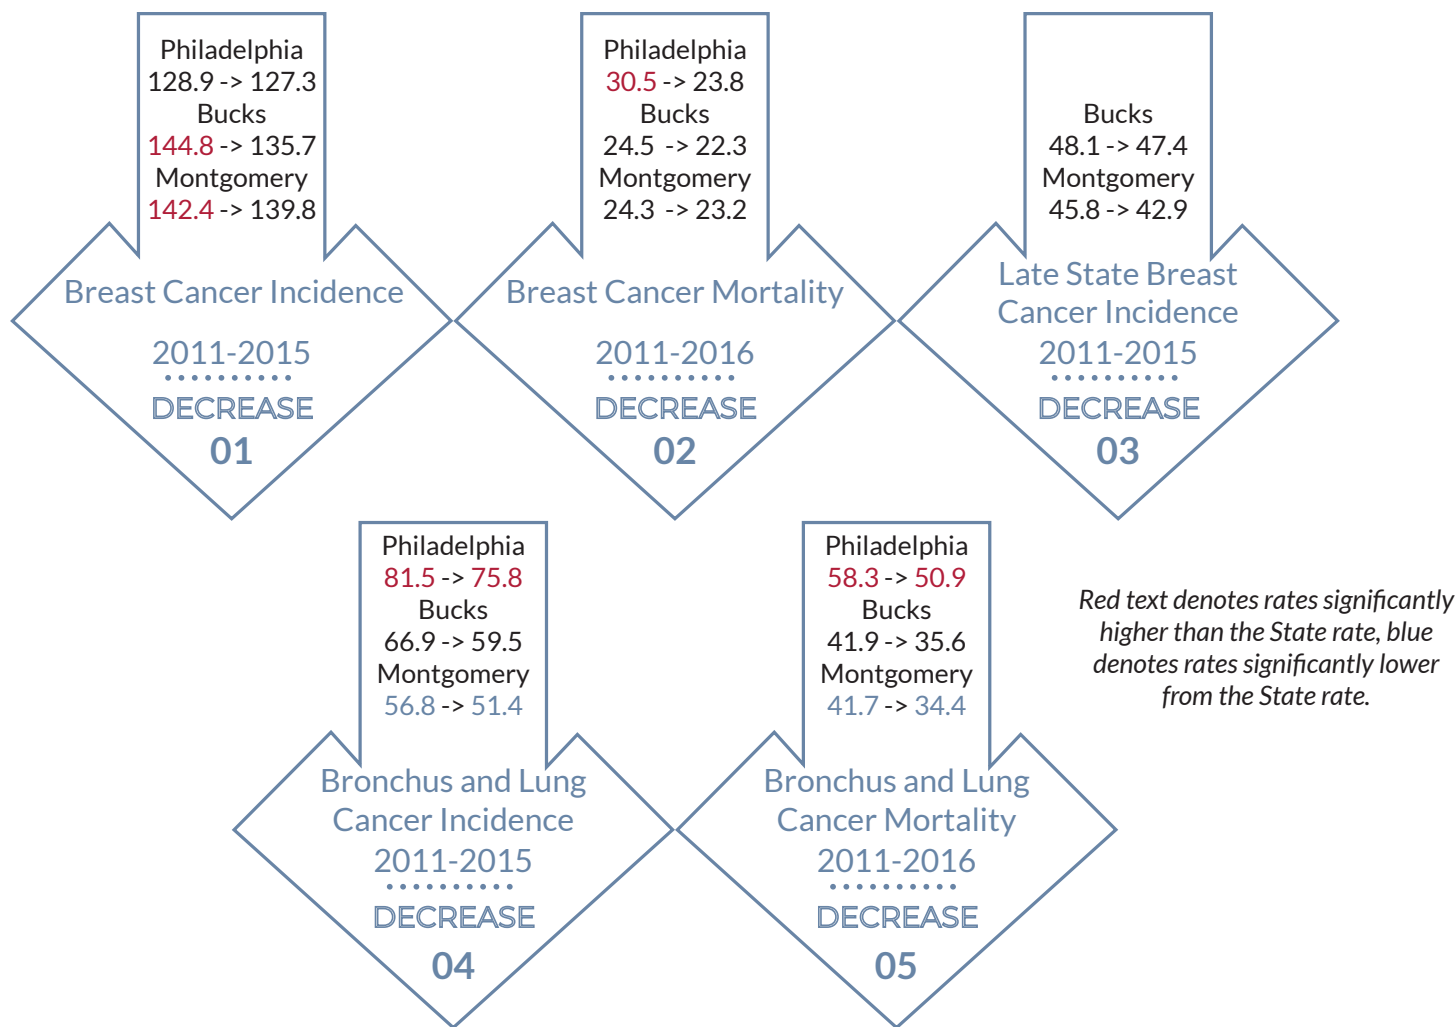

The Coronary Heart Disease mortality rate in Bucks County has remained significantly lower than the State (107.6) and has declined from 80.7 in 2011 to 69.8 in 2016.⁷⁷

The Cardiovascular mortality rate in Bucks County has declined from 195.1 in 2011 to 182.0 in 2016 and remains significantly lower than the State (225.8).⁷⁸

CANCER

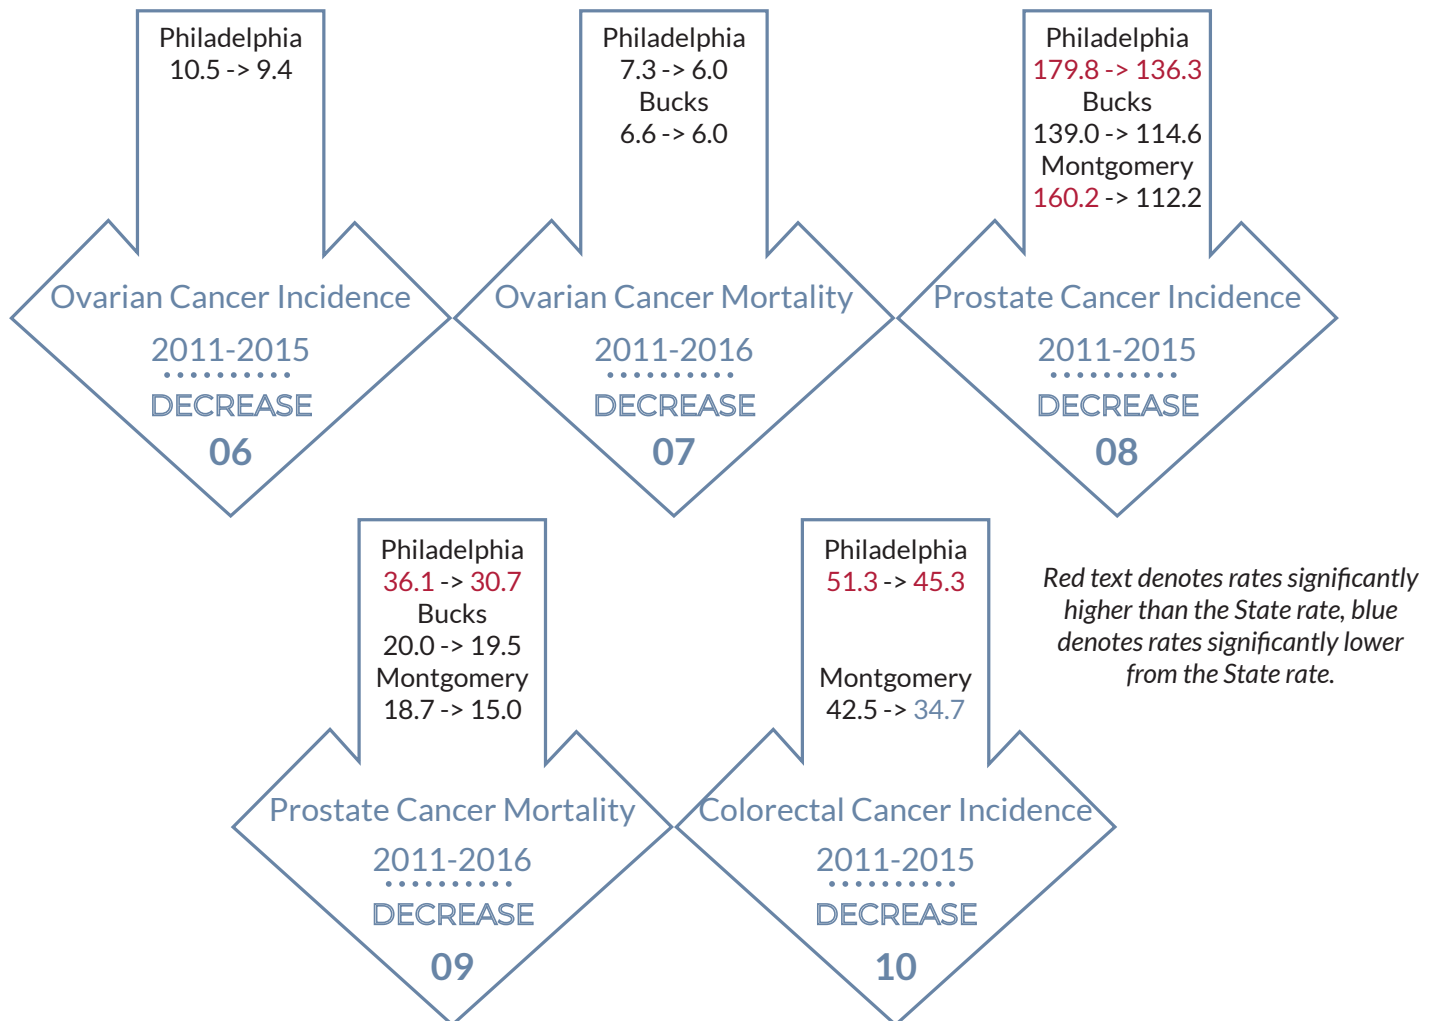

Figures 17 and 18 shows areas that are improving specific to cancer based on decreasing incidence or mortality rates.

Figure 17: FCCC Cancer Summary – Areas of Improvement, 1 of 2

Source: Department of Health Informatics, Pennsylvania Department of Health, 2011-2016.

Figure 18: FCCC Cancer Summary – Areas of Improvement, 2 of 2

Source: Department of Health Informatics, Pennsylvania Department of Health, 2011-2016.

The Breast Cancer incidence rate in Philadelphia County decreased from 128.9 in 2011 to 127.3 in 2015.⁷⁹ In 2011, the Breast Cancer mortality rate in Philadelphia County was 30.5 and was significantly higher than the State rate that year and for the next three years. In 2016, the rate had dropped to 23.8, and was comparable to the State rate of 21.4.⁸⁰ The Late Stage Breast Cancer incidence rate in Bucks County dropped slightly from 48.1 in 2011 to 47.4 in 2015.

The Bronchus and Lung Cancer incidence rate, while remaining significantly higher than the State (63.2), decreased from 81.5 in 2011 to 75.8 in Philadelphia County in 2015.⁸¹ The rate also dropped in Bucks County from 66.9 to 59.5 during the same time period, and dropped in Montgomery County from 56.8 to 51.4, and the rates were significantly lower than the State.⁸² The Bronchus and Lung Cancer mortality rate also decreased in Philadelphia County from 58.3 in 2011 to 50.9 in 2016, and also decreased in Bucks County from 41.9 to 35.6 and in Montgomery County from 41.7 to 34.4.⁸³

The Ovarian Cancer incidence rate in Philadelphia County declined from 10.5 in 2011 to 9.4 in 2016. The rate in Bucks County in 2016 was 6.0 and 8.2 in Montgomery County.⁸⁴

The Ovarian Cancer mortality rate in Philadelphia County decreased from 7.3 in 2011 to 6.0 in 2016. The rate in Bucks County declined from 6.6 to 6.0.⁸⁵

While continuing to be significantly higher than the State rate (104.4), the Prostate Cancer incidence rate in Philadelphia County declined from 179.8 to 136.3 between 2011 and 2015. The rate also declined in Bucks County from 139.0 to 114.6 and declined in Montgomery County from 160.2 to 112.2 between 2011 and 2015.⁸⁶

The Prostate Cancer mortality rate in Philadelphia County declined between 2011 and 2016 from 36.1 to 30.7, as did Bucks County (20.0 to 19.5), and Montgomery County 18.7 to 15.0.⁸⁷ The Colorectal Cancer incidence rate declined from 51.3 to 45.3 between 2011 and 2015, although the rate is still significantly higher than the State (41.9). The Montgomery County rate also declined from 42.5 to 34.7 and is now significantly lower than the State.⁸⁸

DIABETES

The Diabetes mortality rate in 2011 in Philadelphia County was 26.9 and was significantly higher than the State rate. By 2016, the rate had dropped to 21.4 and was comparable to the State (20.2).⁸⁹ The rate in Bucks County was 17.8 and only 11.0 in Montgomery County in 2016, significantly lower than the State.⁹⁰

In 2011, the percentage of students with Asthma conditions was 17.9% and by 2016 has dropped to 12.1%.⁹¹ The age-adjusted rate of Hospital discharges with a primary diagnosis of Asthma per 10,000 children 18 years old and under for the City of Philadelphia overall in 2015 (59.5) shows a decreasing trend since 2011 (98.8).⁹² The rate in both Bucks and Montgomery Counties in 2016 was 12.2%.⁹³

MENTAL HEALTH

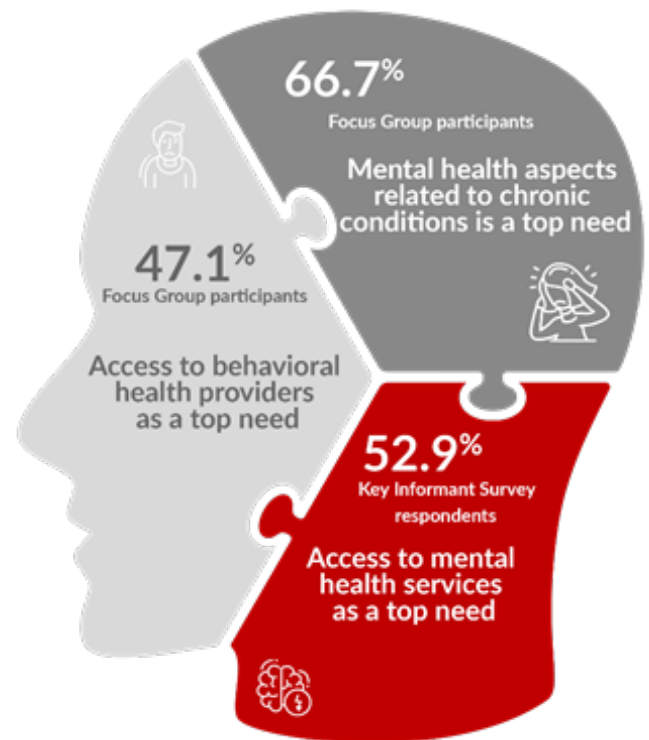

Secondary data, Key Informant Survey respondents and Focus Group participants mentioned the following as identified needs and issues related to mental health:

- Lack of mental health providers;
- High suicide rate;
- Mental health issues related to cancer diagnosis;
- Caregiver burnout;
- Lack of trust, suspicion and fear; and
- Depression, anxiety and PTSD are top priority health issues

WHAT THE COMMUNITY IS SAYING

Figure 19 illustrates that a little over a half (52.9%) of the Key Informant Survey respondents indicated that Access to Mental Health Services is a top community issue. There is a lack of sufficient mental/behavioral health providers as evidenced by only 42.0% of Key Informant Survey respondents indicating that there are adequate numbers of providers.

Figure 19: FCCC Key Informant Survey and Focus Group Respondents: Mental Health, 2018

Sources:
 2018, Fox Chase Cancer Center, Focus Group, Strategy Solutions, Inc.
 2019, Fox Chase Cancer Center, Key Informant Survey, Strategy Solutions, Inc.

Almost half (47.1%) of the Focus Group participants indicated that Access to Behavioral Health Providers is a top community need. Focus Group participants discussed the need to ensure cancer patients and their families have access to counseling. These participants noted that there are many stages an individual and their family goes through following a diagnosis and the need for mental, emotional and spiritual support is an important component.

Just under half (41.7%) of the Community Health Survey respondents indicated that they have been Affected by Mental Health Issues in the last two years, with 58.3% being affected by Depression.

Barriers identified by participants related to mental health included:

- Lack of culturally competent care/communication;
- Transportation;
- Health literacy;
- Hopelessness when diagnosed, and
- Lack of childcare (to support the ability to receive medical care and treatment).

OPPORTUNITIES FOR IMPROVEMENT

MENTAL HEALTH NOT GOOD

The percentage of Adults in Philadelphia County who reported that their Mental Health Was Not Good 1+ Days in the Past Month (46.0%) in 2015-2017 was significantly higher than the State percentage (38.0%). The percentage has also increased slightly since 2011-13 (44.0%).⁹⁵ The percentage in Bucks County for the same time period decreased slightly from 38.0% to 36%, although it increased slightly in Montgomery County from 36.0% to 37%.⁹⁶

MENTAL HEALTH CONDITIONS

The percentage of Adults Diagnosed with a Mental Health Condition in Philadelphia County has increased from 10.5% in 2000 to 20.8% in 2014/15.⁹⁷ The Hispanic percentage (29.6%) was almost fifty percent higher than the overall percentage (20.8%). The White percentage was comparable (23.0%), while the Black percentage was slightly lower (18.5%).⁹⁸

One in four Adults in the North District (26.4%) and one in three Adults the River Wards District (36.7%) were Adults Diagnosed with a Mental Health Condition for the time period 2012-2015; all three districts are higher than the City of Philadelphia overall percentage of 20.8%.⁹⁹

The percentage of people Who Have Ever Been Told That They Have a Depressive Disorder including Depression, Major Depression, Minor Depression or Dysthymia in the Southeast Pennsylvania region (excluding Philadelphia) is 16.0% in 2017.¹⁰⁰

AREAS OF IMPROVEMENT

SUICIDE

The Suicide mortality rate per 100,000 in Philadelphia County in 2016 (9.1) was significantly lower than the overall State rate of 14.6.¹⁰¹ The rate has also decreased slightly since 2011 (10.2).¹⁰² The Suicide mortality rate in the City of Philadelphia for 2016 was 9.1, which has been decreasing slightly since 2012 (11.4).¹⁰³ The rate for Whites (14.7) was significantly higher than the State rate, while the Black rate (5.5) was significantly lower.¹⁰⁴

The Suicide mortality rate in 2016 for those residents in the City's North District (5.2), Lower Northeast (5.5) and Upper North District (2.1) were lower than the City overall (9.1).¹⁰⁵

The Suicide mortality rate in Bucks County in 2016 is 12.5, down slightly from the 2011 rate of 14.2. The rate in Montgomery County in 2016 was 14.3, up slightly from the 2011 rate of 14.1.¹⁰⁶

TEENS CONSIDERING SUICIDE

Over the past 13 years, the percentage of students in 9th-12th grade in Philadelphia County who have seriously considered attempting suicide in the past 12 months has decreased from 16.6% in 2000 to 14.0% in 2015. The percentage among Hispanic students was higher (16.2%) than the County overall (14.0%) and lower among Black (11.9%) and Asian (9.8%) students.¹⁰⁷

In Bucks County, in 2017, 16.2% of students in the 12th grade and 17.9% of students in the 10th grade have considered suicide.¹⁰⁸ In Montgomery County in 2017, 18.8% of students in the 12th grade and 16.6% of students in the 10th grade indicated that they have considered suicide, compared to the State (19.9% and 20.2% respectively).¹⁰⁹

SUBSTANCE USE

Public health data, Key Informant Survey and Focus Group participants identified the following needs and issues related to substance use disorders:

- Substance abuse – Adults and children;
- Alcohol and substance abuse – Adults and children;
- Smoking/vaping – Adults and children;
- Substance Use Disorder makes cancer care difficult; and
- Substance abuse among the HIV/AIDs population causes homelessness.

WHAT THE COMMUNITY IS SAYING

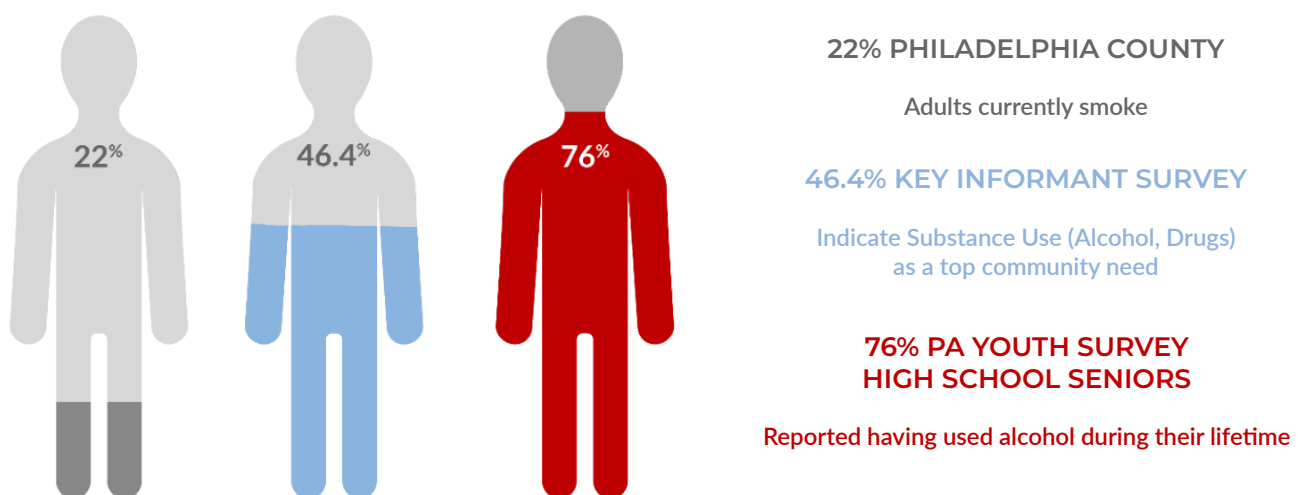

Figure 20 shows that just under half of Key Informant Survey respondents (46.4%) indicated that Substance Abuse/ Alcohol Abuse was the top health issue related to substance abuse disorder. Key Informant Survey respondents do not think there are a sufficient number and range of substance abuse resources in the area, with only 23.2% agreeing with this statement.

Almost half (42.9%) of Focus Group participants indicated that Drug and Alcohol treatment that is both trauma-informed and gender specific is a top community need.

Almost a third (31.6%) of Community Health Survey respondents indicated that substance abuse, including opioids is a Top 3 community health concern in the community.

Barriers include lack of services and support.

Figure 20: FCCC Focus Group Participants and Key Informant Survey Respondents: Substance Use Disorder, 2018

WHERE THERE ARE OPPORTUNITIES

TOBACCO

Figure 21: Smoking Prevalence and Mortality

Source: Division of Health Informatics, Pennsylvania Department of Health; Vital Statistics for Philadelphia, Pennsylvania Department of Health, 2011-2016.

As highlighted in **Figure 21**, although the percentage of Adults in Philadelphia County reporting being a Current Smoker decreased from 25.0% in 2011-2013, to 22.0% in 2015-2017, the percentage was still significantly higher than the State (18.0%).¹¹⁰

The prevalence of Adults Smoking in the City of Philadelphia has been on a decline from 27.3% in 2008 to 22.4% in 2014/15, although Black Adults (25.8%) were higher than the City, while Asian Adults (9.1%) were two times lower than the City overall.¹¹¹ The percentage of Adults who Report Smoking in the City's River Wards (38.8%), North (28.3%), and Upper Northeast (23.3%) Districts were higher than the City overall.¹¹²

The Smoking-Attributable mortality rate for the City's River Wards District (766.2) was the worst in the City of Philadelphia in 2014.¹¹³

Although the percentage of Teen Tobacco Use and Cigarette Smoking Prevalence, 9th-12th Grade in the City of Philadelphia has been on a steady decline since 2001 (15.8%) to 2015 (7.2%), while White Teens (34.8%) and Hispanic teens (31.0%) are higher than the City overall.¹¹⁴

DRUG-INDUCED MORTALITY

The Drug-Induced mortality rate in Philadelphia County (47.2) was significantly higher than the State rate (38.5).¹¹⁵ The rate almost doubled over the past six years from 28.3 in 2011 to 47.2 in 2016.¹¹⁶

Opioid-Related mortality in the City of Philadelphia has more than tripled since 2003 (14.0) to 40.3 in 2016. The rate among White residents (65.3) was significantly higher, while the Hispanic rate (43.7) was slightly higher.¹¹⁷ The rate for Blacks was significantly lower (24.8) as was the Asian rate (7.0).¹¹⁸ The Opioid-Related mortality rate for the City's River Wards (105.1) and North (44.1) Districts were higher than the overall County rate.¹¹⁹

EXCESSIVE DRINKING

The percentage of Adults who reported Excessive Drinking has increased in Philadelphia County from 18.0% in 2011 to 22.1% in 2018.¹²⁰ This was slightly higher than the State (20.5%).¹²¹ The percentage of Adults who reported Excessive Drinking for the City of Philadelphia remained consistent between 2014 (19.2%) and 2015 (19.5%), although White Adults (25.8%) and Hispanic Adults (22.1%) were higher than the City of Philadelphia overall (18.7%) for 2012.¹²²

PRESCRIPTION PAIN RELIEVER USE

The percentage of students in Philadelphia County reporting Prescription Narcotics Use has increased from 5.6% in 2013 to 7.3% in 2017.¹²³ The percentage was highest among high school seniors (9.9%), although the percentage among those in 10th grade has increased from 5.6% in 2013 to 7.1% in 2017.¹²⁴

AREAS OF IMPROVEMENT

ALCOHOL IMPAIRED DRIVING MORTALITY

Alcohol Impaired Driving Deaths in Philadelphia County have decreased from 27.4% in 2014 to 22.5% in 2018. This was lower than the State (30.1%).¹²⁵

TOBACCO USE

The percentage of Adults in Bucks County indicating that they are Current Smokers has dropped from 20.0% in 2011-2013 to 10% in 2015-2017, which is significantly lower than the State (18.0%). Montgomery County has also seen improvements in Smoking during the same time period from 16% to 11%, also significantly lower than the State.¹²⁶

“We see a lot in our organization and increasingly the opioid and substance abuse epidemic is causing issues. Not just for the users but for their families. Their situation is impacting children who are left behind, being cared for by grandparents who are burdened financially and physically. This affects the entire family.”

Key Informant Survey Respondent

YOUTH ALCOHOL USE

The percentage of students in Philadelphia County who report lifetime Alcohol Use has decreased from 56.2% to 49.3%. The percentage is somewhat lower for Bucks County (42.2%) of the percentage of students who report lifetime Alcohol use and in Montgomery County it is 40.8%, lower than the State (43.3%). Over three fourths of high school seniors in Philadelphia County (76.0%) report some lifetime alcohol use. The percentages are slightly lower in Bucks (70.7%) and Montgomery County (40.8%).¹²⁷

YOUTH TOBACCO USE

The percentage of students reporting lifetime Use of Cigarettes has decreased in Philadelphia County between 2013 (19.1%) to 14.5% in 2017.¹²⁸ The 2017 percentage in Bucks County is only 2.8%, down from 14.2% in 2013.¹²⁹ The percentage in Montgomery County is 8.3% in 2017.¹³⁰

The percentage of students Using Cigarettes in the past 30 days in Philadelphia County has also decreased from 8.9% in 2013 to 2.4% in 2017.¹³¹ In Bucks County, the percentage has dropped from 6.6% in 2013 to 0.4% in 2017.¹³² In Montgomery County, the percentage has decreased from 5.4% to 2.8% between 2013 and 2017.¹³³

VAPING/E-CIGARETTE USE

Almost one in five (18.3%) of Philadelphia County students in 2017 reported Vaping/E-Cigarette use in the past 30 days.¹³⁴ This is compared to 19.5% in Bucks County¹³⁵ and 15.7% in Montgomery County.¹³⁶ The State is 16.3%.¹³⁷

PHYSICAL ACTIVITY & NUTRITION

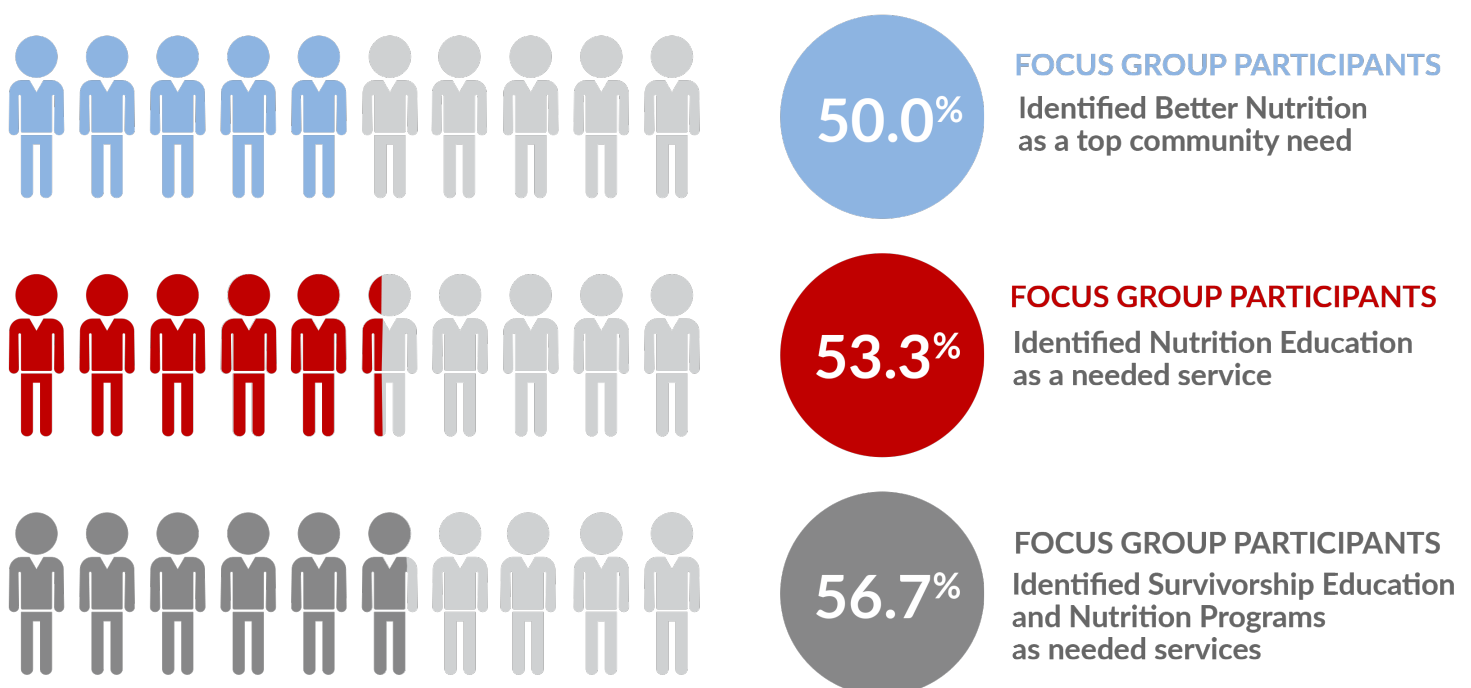

Good nutrition, physical activity, and a healthy body weight are essential parts of a person's overall health and well-being. Together, these can help decrease a person's risk of developing serious health conditions, such as high blood pressure, high cholesterol, diabetes, heart disease, stroke, and cancer. Public health data, Key Informant Survey respondents and Focus Group participants identified the following needs and issues related to physical activity and nutrition:

- Food insecurity/access to healthy foods/nutrition; and
- Lack of physical activity/leisure time/green space.

WHAT THE COMMUNITY IS SAYING

As illustrated in **Figure 22**, half (50%) of the Focus Group participants identified Better Nutrition as a top community need. These participants talked about the fact that many communities are in a food desert. Focus Group participants went on to note the need for safe spaces to exercise as well as green areas for gardening.

Figure 22: FCCC Key Informant Survey and Focus Group Participants Insecurity and Physical Activity Responses, 2018

Source: 2018, Fox Chase Cancer, Focus Group, Strategy Solutions, Inc.

More than half (53.3%) of the Focus Group participants also identified Nutrition Education as a needed service. They also stressed that several additional services would be ideal:

- A Nutritionist/resource person who can refer people for food;
- A diet with a month's worth of food;
- Free memberships to exercise facilities;
- Ongoing communications support; and
- More safe places for people to exercise.

Almost all (94.4%) of the Community Health Survey respondents indicate that they are physically active for 30 minutes or more at least a few times per week if not more. Furthermore, 73.3% report eating fresh fruits and vegetables every day.

Key Informant Survey respondents identified Obesity as a top community issue because the majority of those diagnosed with Cancer are Overweight.

Other issues identified participants include:

- Lack of nutrition and food insecurity leads to obesity and diabetes;
- Obesity;
- Access to fresh fruits and vegetables;
- Lack of safe places to walk and play;
- Lack of nutrition education (for people with cancer); and
- Food deserts.

The only barrier discussed by the participants was Food Insecurity.

Needed services identified by participants included:

- Nutrition education;
- Resource person who can refer people for food;
- Diet with a month's worth of food;
- Free memberships to exercise facilities;
- Ongoing communication and support;
- More safe places for people to exercise
- Green areas, gardening and horticulture; and
- Nutritionist available for patient consultation.

WHERE THERE ARE OPPORTUNITIES

PHYSICAL ACTIVITY

Over a quarter (27.0%) of Philadelphia County Adults report that they have had No Leisure Time Physical Activity in the past Month.¹³⁸ Bucks County (18.0%) is significantly lower than the State (25.0%). The rate in Montgomery County is slightly lower than the State at 20.0%.¹³⁹

FOOD INSECURITY

More than one in five (21.0%) of the Philadelphia County population has Food Insecurity which was much higher than the State percentage of 13.1%.¹⁴⁰ The percentage in Bucks County is 8.8% and the percentage in Montgomery County is 9.7%.¹⁴¹

Since 2014, the percentage of Philadelphia County students qualifying for Free or Reduced-Price Lunch increased from 74.9% to 95.4%, almost double the State percentage of 48.2%.¹⁴² This compares to 24.8% in Bucks County and 28.0% in Montgomery County.

The percentage of the Philadelphia County population Living in High-Poverty Areas With Low to No Walkable Access to Healthy Foods has decreased slightly from 24.1% in 2010 to 22.4% in 2014.¹⁴³ The percentage in the City's North (34.4%), River Walks (26.4%), Upper Northwest (24.7%) and Lower Northeast (25.5%) Districts are all higher than the City percentage overall.¹⁴⁴

The percentage of City of Philadelphia residents reporting that it was Difficult or Very Difficult to Find Fruit and Vegetables in Their Neighborhoods for 2014/15 overall was 7.9%, although the percentage among Hispanics was 12.4% and Blacks was 10.7%.¹⁴⁵

PHYSICAL ACTIVITY

The percentage of Adults in the City of Philadelphia who said they had Access to Nearby Parks or Outdoor Space has remained constant between 2012 (72.1%) and 2014/15 (73.1%), although Hispanic Adults (69.6%) were less likely to say they had Access to Nearby Parks or Outdoor Space.¹⁴⁷ Those Adults living in the North (60.7%), Upper North (62.7%), and Lower Northeast (70.6%) Districts were also less likely to say that they had Access to Nearby Parks or Outdoor Space when compared to the City of Philadelphia (73.1%) while the River Wards District (74.7%) was slightly higher than the City overall.¹⁴⁸

OBESITY

Since 2000, the prevalence of Obesity (percentage of Adults with Body Mass Index greater than or equal to 30kg/m² based on self-reported height and weight) in Philadelphia County has increased from 25.2% to 33.3% in 2014-15.¹⁴⁹ The percentage for Blacks (40.1%) was substantially higher, while the percentage for Asians was much lower (9.8%) when compared to the City overall.¹⁵⁰ The percentages in the North (39.5%), Upper North (39.2%) and Upper Northwest (35.3%) Districts are higher than the County overall, while the Lower Northeast (33.2%) and River Wards (32.2%) District percentages are slightly lower.¹⁵¹

In Bucks County, 62.0% of Adults are considered Overweight and 26.0% are considered Obese. This compares to 63.0% Overweight and 26.0% Obesity in Montgomery County, while the State percentages are 66.0% and 31.0% respectively.¹⁵²

HEALTHY ENVIRONMENT

Environmental quality is a general term which refers to varied characteristics that relate to the natural environment such as air and water quality, pollution, noise, and weather as well as the potential effects these characteristics have on physical and mental health. In addition, environmental quality also refers to the socio-economic characteristics of a given community or area, including economic status, education, crime and geographic information. Public health data identified the following needs and issues related to healthy environment:

Gun violence/mortality;
Children living in poverty/poverty in general; and
Lack of safe and affordable housing.

WHAT THE COMMUNITY IS SAYING

Focus Group participants indicated that there are numerous social determinants of health that play a role in overall health care including:

- Health literacy;
- Safety;
- Housing, and transportation because these are underlying the health problems that people experience; and
- More green spaces for gardening and horticulture are needed because they are important contributors to the overall environment.

Focus Group participants also noted that it is important to have trauma informed care and services because of the issues of safety and security that are present in the local environment. Trauma Informed Care is an organizational structure and treatment framework that involves understanding, recognizing, and responding to the effects of all types of trauma. Trauma Informed Care also emphasizes physical, psychological and emotional safety for both consumers and providers, and helps survivors rebuild a sense of control and empowerment.¹⁵³

Homelessness is also an issue related to continuity of treatment that was identified by Focus Group participants; some noted that there is an “invisible” level of homelessness that is not being captured as well, as some homeless people will stay with relatives or friends.

WHERE THERE ARE OPPORTUNITIES

ASTHMA

The percentage of Adults who have ever been told they have Asthma has increased in both Bucks (from 10.0% in 2011-2013 to 13.0% in 2015-2017) and Montgomery Counties from 14.0% to 17.0% during the same time period. The State percentage for 2015-2017 is 15%.¹⁵⁴

Adults who currently have Asthma have also increased in Bucks County from 5.0% to 9.0% between 2011 and 2017. The percentage in Montgomery County has increased from 8.0% to 10.0%.¹⁵⁵

AREAS OF IMPROVEMNT

None of the selected indicators met the criteria for inclusion in this section. See Appendix A for additional information on Physical Activity and Nutrition indicators.

POVERTY

The percentage of Children Living in Poverty in Philadelphia County in 2018 (37.2%) has increased from 2011 (31.7%).¹⁵⁶ The percentage in Bucks County is only 8.0% and 7.8% in Montgomery County, much lower than the State percentage of 18.4%.¹⁵⁷

The percentage of Children Living in Single Parent Homes in Philadelphia County (59.8%) has also increased from 2011 (57.8%).¹⁵⁸ The percentage in Bucks (21.2%) and Montgomery (20.8%) are lower than the State percentage 33.8%.¹⁵⁹

The percentage of Children Living in Poverty in the City of Philadelphia in 2015 (38.3%) has slightly increased from 2000 (31.6%).¹⁶⁰ Children Living in Poverty who are Hispanic (50.3%) and Black (45.9%) are higher than the City overall percentage.¹⁶¹ This may also be related to the percentage of Children Living in Single Parent Homes for those children living in the City of Philadelphia overall in 2015 (60.2%) which has increased from 2013 (58.2%).¹⁶² Children Living in Single Parent Homes for the City's North District (77.6%), Lower Northeast (58.4%) and the River Wards District (62.5%) are all higher than the City overall in 2015.¹⁶³

EMPLOYMENT

The Unemployment rate for those 16 years old and older in 2015 for the City's North District (23.4%), Upper North (19.7%), Lower Northeast (18.4%), River Wards (18.0%), and the Upper Northwest (13.4) Districts are all above the City overall (10.9%).¹⁶⁴ The Unemployment rate for those 16 years old and older in 2015 who are Black (15.2%) and Hispanic (14.5%) are also higher than the City percentage.¹⁶⁵

The Unemployment rate in 2018 in Bucks County was 4.6% and in Montgomery County 4.2%. This compares favorably to the State rate of 5.4%.¹⁶⁶ Additional detail on the unemployment rates within the service area are included by zip code in *Table 3* in the Demographics section of this report.

HOUSING

The percentage of Philadelphia County residents with Severe Housing Problems in 2018 was 24.3%, much higher than the State percentage of 15.5%.¹⁶⁷ Bucks County's percentage was 15.1% and Montgomery County's percentage was 15.3%, slightly lower than the State overall.¹⁶⁸

For 2016, the Philadelphia Building Construction and Occupancy Code Violations per 1,000 Occupied Housing Units for the City of Philadelphia in 2016 was 193.4, which violations has been slowly increasing since 2009 (164.7).¹⁶⁹ When comparing the City to the planning districts, the North District (282.7), the Lower Northeast (258.5) and the River Wards District (240.2) are all higher than the City overall.¹⁷⁰

VIOLENCE

The Violent Crime rate for Philadelphia County in 2018 was 1094.2 per 100,000 population.¹⁷¹ This was more than three times the State rate of 332.7. The Violent Crime rate in Philadelphia has decreased from 1,503 in 2000 to 1,029 in 2015. Philadelphia has the highest Violent Crime rate of all major cities nationwide.¹⁷²

FIREARM MORTALITY

The Firearm mortality rate in 2016 (17.9) was also significantly higher than the State rate (11.9) and was almost twice the Healthy People 2020 goal of 9.3.^{173,174} The rate among Black Males was 62.7, significantly higher than the State rate for Black Males (49.4).¹⁷⁵

HOMICIDE

The Homicide mortality rate in the City of Philadelphia has fluctuated over the past thirteen years, but overall has decreased from 22.0 in 2003 to 17.8 in 2016.¹⁷⁶ The rate was significantly higher for Black residents (31.6).

According to the County Health Rankings, the Homicide rate in Bucks County is 1.7 and 1.9 in Montgomery County.¹⁷⁷

The Firearm Homicide rate has also fluctuated over the past thirteen years, but overall has decreased from 17.3 in 2003 to 14.9 in 2016. This rate was also significantly higher among Black residents (27.3). The City's North District (46.6) has the highest homicide rate in the City. In 2016, more than double the overall City rate. The River Wards (12.7) and Lower Northeast (13.8) Districts have lower rates.¹⁷⁸

AREAS OF IMPROVEMENT

EMPLOYMENT

The Violent Crime rate for the City of Philadelphia in 2015 was 1,029 per 100,000 population, which has been consistently decreasing since 2008 (1,441).¹⁷⁹ The Violent Crime rate for Bucks County is only 100.4 and for Montgomery County 163.2. The overall Pennsylvania State rate is 629.7.¹⁸⁰

YOUTH AND ADULT ASTHMA

In 2011, the percentage of students in Philadelphia County with Asthma conditions was 17.9% and by 2016 has increased to 18.6%.¹⁸¹

Since 2011 (17.0%), the percentage of Adults Who Have Ever Been Told They Have Asthma dropped slightly in Philadelphia County to 16.0% in 2015-2017, and the percentage was no longer significantly higher than the State percentage (15.0%).¹⁸² The percentage of Adults Who Currently Have Asthma in 2015-2017 (12.0%) was also lower than 2011-2013 (13.0%) and was also no longer significantly higher than the State percentage (10.0%).¹⁸³

The overall Asthma Hospitalization Rate per 10,000 Children <18 (2013-2015) in Philadelphia is 59.5, down from 73.6 in 2000. The rate is higher (67.4) for Black Children and much lower (10.2) for White Children. However, portions of the North (128.1), Lower Northeast (104.1), Upper North (92.1), and River Wards (114.1) Districts rates that are nearly or more than double.¹⁸⁴

AIR POLLUTION

The average number of days per month with Air Pollution – Particulate Matter has decreased in Philadelphia County from 16.0 in 2011 to 11.2 in 2018.¹⁸⁵ In the City of Philadelphia, the number of Days with Good Air Quality in 2016 (178) has fluctuated over time but has been increasing since 2000 (137), and the number of Days with Unhealthy Air Quality has been decreasing from 29 in 2000 to 9 in 2016.¹⁸⁶

Bucks County in 2018 had an average of 10.7 days per month with Air Pollution – Particulate Matter and Montgomery has an average of 10.0.¹⁸⁷

EMPLOYMENT

The Unemployment rate in Philadelphia County has been decreasing over the past few years to 6.8% in 2018, although the rate was slightly higher than the State rate of 5.4%.¹⁸⁸ The City of Philadelphia unemployment rate has also been decreasing from 10.9% in 2012 to 6.8% in 2016.¹⁸⁹

HIGH SCHOOL GRADUATION RATES

The percentage of students graduating high school has increased in Philadelphia County from 59.0% in 2014 to 69.8% in 2018. While the local rate has increased, this was still lower than the State rate of 85.4% and the US rate of 84.0%.¹⁹⁰ The rate in Bucks County is 92.4% and 93.6% in Montgomery County in 2018, both higher than the State.¹⁹¹

The On-Time High School Graduation Rate for the City of Philadelphia increased from 55.2% in 2011 to 64.8% in 2015. The rate for Hispanic Students in 2014/15 is much lower at 53.3%.¹⁹²

HEALTHY WOMEN, MOTHERS, BABIES & CHILDREN

The well-being of children determines the health of the next generation and can help predict future public health challenges for families, communities, and the health care system. The healthy mothers, babies and children topic area addresses a wide range of conditions, health behaviors, and health systems indicators that affect the health, wellness, and quality of life for the entire community. Public health data and focus group participants independently mentioned the following issues related to healthy women, mothers, babies and children:

- Affordable childcare;
- Medicaid assistance;
- WIC assistance;
- Low birth rate;
- Non-smoking pregnancy;
- No prenatal care;
- Teen pregnancy; and
- Infant mortality.

WHAT THE COMMUNITY IS SAYING

The majority (87.5%) of Focus Group participants identified Child Care as a needed service to help people access treatment services.

WHERE THERE ARE OPPORTUNITIES

PRENATAL CARE

While the percentage of Mothers Receiving Prenatal Care in the First Trimester in Philadelphia County has increased from 2011 (54.3%) to 2016 (61.9%), the percentage has remained significantly lower when compared to the State (73.8% in 2016).¹⁹³ The percentage in Bucks County, while significantly higher than the State in 2011 at 78.0%, declined in 2016 to 74.1% and is no longer significantly higher.¹⁹⁴

Also, the percentage of Women receiving No Prenatal Care (5.2%) was significantly higher than the State (1.6%). The percentage of Black Women Receiving Late or No Pre-Natal Care (2014) was 16.4%, Hispanic (13.8%), Asian (10.9%) and White was 8.3%, compared to the City of Philadelphia (13.3%).¹⁹⁵

In 2014, the percentage of Women who Received Prenatal Care either in the third trimester or not at all for the North District (14.4%), Upper North (15.4%), Upper Northeast (16.5%) and the Lower Northeast District (17%) were all higher than the City overall (13.3%).¹⁹⁶

MATERNAL SMOKING

The percentage of Non-Smoking Mothers During Pregnancy in Philadelphia County has been significantly higher than the State percentage (88.5% in 2016) over the past five years.¹⁹⁷ The percentage has also increased from 89.4% in 2011 to 93.5% in 2016.¹⁹⁸

The percentage of Non-Smoking Mothers three months prior to pregnancy in Philadelphia County has also been significantly higher when compared to the State (84.3% in 2016). This percentage has also increased from 85.6% in 2011 to 90.9% in 2016.¹⁹⁹

LOW BIRTH WEIGHT BABIES

The percentage of Low Birth Weight Babies in Philadelphia County has been significantly higher than the State percentage (8.2% in 2016) for the past five years, although the percentage has decreased from 11.3% in 2011 to 10.8% in 2016.²⁰⁰ The percentage for Black Babies was 13.6%, Hispanic was 9.5%, White was 7.2% and Asian was only 6.5%.²⁰¹ For 2014, the City's Upper North (12.4%), Upper Northeast (11.8%), Lower Northeast (11.4%) and the North Districts (11.1%) were all higher than the City for Low Birth Weight Babies, although the River Wards District (8.6%) was slightly lower than the City overall.²⁰²

INFANT MORTALITY

In 2014, the Infant Mortality rate per 1,000 live-born infants under one year of age for the City's Lower Northeast (10.7), Upper Northeast (9.7), North (9.3), Upper North (8.8) and River Wards (8.4) Districts are slightly higher than the overall City of Philadelphia rate of 7.8.²⁰³

WIC ASSISTANCE

The percentage of mothers reporting WIC assistance in Philadelphia County was significantly higher when compared to the State (35.0% in 2016) for the past five years, although the percentage has been decreasing from 61.2% in 2011 to 52.9% in 2016.²⁰⁴ The percentage of mothers on WIC Assistance who are Black, (63.6%), Hispanic (74.0%), or Asian (47.0%) was significantly higher than the State for each (61.7%, 68.4%, and 29.2% respectively).²⁰⁵

CHILDHOOD OBESITY

The percentage of students in grades K-6 who are considered Obese in Philadelphia County has remained fairly consistent since 2011 and in 2016 (18.7%) was higher when compared to the State (16.7%) and the Healthy People 2020 Goal (15.7%).²⁰⁶

The percentage of students in grades 7-12 considered Obese in Philadelphia County has fluctuated slightly from 2011 (20.1%) to 2016 (20.0%) and continues to be higher than the State (19.1%) and the Healthy People 2020 Goal (16.1%).²⁰⁷

Although the Child Obesity, Ages 5 to 18 percentage for the City of Philadelphia for the year 2014/15 has remained somewhat constant from 2001 (21.7%) to 2015 (20.6%), Black Females (22.8%), White Males (21.2%), Hispanic Females (22.0%) and Males (25.7%) have higher percentages when compared to the City overall.²⁰⁸

For the school year 2014/15, the percentage of children, Ages 5 to 18 years with Child Obesity Prevalence for the planning districts has been reported by zip code. Therefore, looking at the North District, zip code 19140 (23.7%) is higher than the City of Philadelphia overall percentage of 20.6%.²⁰⁹ The Lower Northeast zip code of 19124 (22.7%) and the Upper North zip codes of 19150 (21.9%), 19138 (21.6%), 19126 (22.3%) are all slightly higher than City overall percentage for Child Obesity Prevalence.²¹⁰ Looking at the zip codes for the City's River Wards District, 19137 (25.6%), 19134 (21.2%) and 19125 (24.6%) are all slightly higher than the City overall.²¹¹

AREAS OF IMPROVEMENT

PRENATAL CARE

Montgomery County has increased the percentage of Women who Receive Prenatal Care in the first trimester between 2011 and 2016 from 73.1% to 78.9%, which are consistently significantly higher than the State (73.8% in 2016).

MATERNAL SMOKING

The percentages of Women Not Smoking During Pregnancy have improved in both Bucks (88.0% to 92.4%) and Montgomery Counties (92.8% to 94.8%) between 2011 and 2016 while consistently remaining higher than the State percentage (which is 88.5% in 2016).²¹²

INFANT MORTALITY

Over the past seven years in Philadelphia County, the Infant mortality rate per 1,000 live births has decreased from 11.4 in 2007 to 7.8 in 2014.²¹³ However, the rate among Blacks was 12.2, significantly higher than the overall rate, while the White rate was 3.8, lower than the overall rate.²¹⁴ The Hispanic rate was 5.6. All of the Districts in the FCCC Service Area including Lower Northeast (10.7), North (9.3), Upper Northeast (9.7), Upper North (8.8) and River Wards (8.4) had higher rates than the City overall.²¹⁵

The Infant mortality rate in Bucks County declined from 5.6 in 2011 to 2.5 in 2016, significantly lower than the state rate of 6.1. Montgomery County's rate has remained stable around 4.8.²¹⁶

BREASTFEEDING

After being significantly lower than the State percentage for several years, the percentage of Breastfeeding Mothers in Philadelphia County has increased over the past five year from 62.3% in 2011 to 80.9% in 2016.²¹⁷ The percentage was statistically comparable to the State percentage of 81.1%.²¹⁸ The percentages in both Bucks (75.8% to 83.6%) and Montgomery Counties (84.2% to 91.1%) have increased between 2011 and 2016 and remain consistently significantly higher than the state percentage.

The percentage of women Initiating Breastfeeding before Hospital Discharge out of all Women for Whom Breastfeeding Status is Known in 2014 was lower for Black and Hispanic women (74.4% and 74.8% respectively) and higher for White (81.8%) and Asian women (85.3%).²¹⁹

TEEN PREGNANCY

The Teen Pregnancy rate per 1,000 females ages 15-17 in Philadelphia County has been decreasing from 55.7 in 2011 to 26.6 in 2016 in Philadelphia County, although it was still statistically higher than the State rate (10.6 in 2016).²²⁰ The rate for ages 18-19 has been decreasing as well from 116.7 in 2011 to 69.8 in 2016. However, the rate remained above the State (38.1).²²¹

The Teenage Pregnancy rate for both teens ages 15-17 and 18-19 in both Bucks and Montgomery Counties have improved between 2011 and 2016 and have been consistently significantly lower than the State rates.²²²

TEEN BIRTHS

The rate of Teen Births per 1,000 Teen Girls, 15-19 Years of Age in Philadelphia has decreased from 59.1 in 2003 to 34.9 in 2014.²²³ The rate for Hispanic (58.9) and Black (43.1) teens is much higher than White (22.2) and Asian (8.0) teens. The rate in the North District is 56.4.²²⁴

The 2016 percentage in Bucks County for Teen Live Birth Outcomes Ages 15-17 is 47.4% and for ages 18-19 58.5%, lower than the State percentage of 67.4% and 71.8% respectively. The percentages in Montgomery County are 41.9% and 56.4%, both significantly lower than the comparable State percentages. The percentage of Teen live birth outcomes in Montgomery County has actually increased between 2011 and 2016 from 50.5% to 56.4%, although the percentages remain significantly lower than the State average.

INFECTIOUS DISEASE

Pathogenic microorganisms, such as bacteria, viruses, parasites or fungi, cause infectious diseases; these diseases can be spread, directly or indirectly, from one person to another. These diseases can be grouped in three categories: diseases which cause high levels of mortality; diseases which place heavy burdens of disability on populations; and diseases which owing to the rapid and unexpected nature of their spread can have serious global repercussions.²²⁵

WHAT THE COMMUNITY IS SAYING

Although not discussed at length by those participating in the primary research, the Focus Group participants identified the HIV/AIDS population, especially those with mental health and substance abuse, as an important community issue because this often leads the to drop out of care and they become homeless.

WHERE THERE ARE OPPORTUNITIES

PNEUMONIA VACCINE

The percentage of Adults age 65 and older who Had a Pneumonia Vaccine in Montgomery County fell from 82% in 2011 to 73% in 2016 and is slightly lower than the State percentage of 74%.²²⁶

CHLAMYDIA

For the past six years, the Chlamydia rate per 100,000 population in Philadelphia County has been significantly higher than the State rate (445.4), although the rate has decreased from 2011 (1332.3) to 1275.7 in 2016. The current county rate was almost triple the State rate.²²⁷

The Teen Chlamydia rate, 15-19 Years of Age for the City of Philadelphia overall, has increased from 4,837 in 2015 to 5,050 in 2016.²²⁸ The City's North District's Teen Chlamydia rate for 15-19 Years of Age in 2015 was 7,157.3 and the Upper Northwest (6,843.2), and Upper North (5,859.8) Districts were both higher than the City rate of 4,837 for 2015.²²⁹

The Chlamydia rate in Bucks County has increased from 160.0 in 2011 to 245.4 in 2016, although the rate remains significantly lower than the State rate (445.4 in 2016). The Montgomery County rate has also increased from 225.9 in 2011 to 303.1 in 2016.²³⁰

GONORRHEA

The Gonorrhoea rate in Philadelphia County has been increasing from 440.0 in 2011 to 444.7 in 2016. This was three times higher than the State rate of 114.3.²³¹ The Bucks County rate has more than doubled between 2011 and 2016 from 20.4 to 43.1, although it remains significantly lower than the State rate (114.3).²³²

HEPATITIS B

Hepatitis B is the most common risk factor for liver cancer. Individuals chronically infected with hepatitis B have a 25% to 40% lifetime risk of developing liver cancer.²³³ The Hepatitis B incidence rate in Philadelphia County is 12.9/100,000 for chronic cases, which is higher than the state rate of 7.5/100,000. The rate is also higher than the state rate in both Montgomery county (11.7/100,000) and Bucks counties (9.4/100,000).²³⁴

HUMAN PAPILLOMAVIRUS (HPV) – CANCER VACCINE

Each year more than 33,000 men and women are diagnosed with a cancer caused by HPV. This includes cancers of the throat, cervix, vagina, vulva, penis and anus. In the state of PA 12.420 per 100,000 are diagnosed with an HPV-related cancer.²³⁵ An HPV vaccine protects against these high-risk infections.

The percentage of Girls Completing 3-Dose HPV Vaccine, 13-17 Years of Age in the City of Philadelphia has increased from 8.4% in 2008 to 54.0% in 2016. The rate is higher for Hispanics (63.7%) and Asians (61.3%) and lower for Blacks (55.9%) and Whites (48.7). The rate is highest in the City's North District (60.4%). The City's Upper North (54.4%) and Lower Northeast (54.7%) Districts have higher rates than the City overall, while the Upper Northwest (51.6%) and the River Wards (51.5%) Districts have lower rates than the City overall (54.0%).²³⁶

The percentage of Girls Completing 3-Dose HPV Vaccine 13-17 Years of Age in the City of Philadelphia (79.1%) is higher than the nation (70.5%).²³⁷

The only data available regarding Boys Completing 3-Dose HPV Vaccine, 13-17 Years of Age is comparing the City of Philadelphia percentage against the nation. The nation percentage (60.9%) is slightly higher than the City (57.7%).²³⁸

The PA Department of Health Enterprise Data Dissemination Informatics Exchange currently does not have any datasets related to the HPV vaccine. Therefore, no county data can be reported.

NEW HIV CASES

Persons infected with the HIV virus have an increased chance of being diagnosed with cancer. The most commonly associated cancers are: Kaposi sarcoma, aggressive B-cell non-Hodgkin lymphoma, and cervical cancer. Persons with HIV also have an increased risk of other types of cancer including cancers of the anus, liver, oral cavity/pharynx, and lung, and Hodgkin lymphoma.²³⁹ The rate of newly diagnosed HIV cases in the City's North District (40.6) is higher than the City of Philadelphia overall (31.5) for the year 2016. The rate of newly diagnosed HIV cases for Hispanics (49.0) and Blacks (48.0) are also higher than the City overall for 2016. The trend for the City of Philadelphia overall has been decreasing (47.8 in 2012).²⁴⁰

AREAS OF IMPROVEMENT FOUND

GONORRHEA

The Teen Gonorrhea rate per 100,000 Teens, 15-19 Years of Age in the City of Philadelphia has been steadily decreasing since 2011 (1,966) to 1,168 in 2016.²⁴¹ The River Wards District (626.0) rate is lower than the City of Philadelphia rate of 1,217 for 2015.²⁴²

EVER TESTED FOR HIV

The percentage of Adults ages 18-64 in Philadelphia County who have ever been tested for HIV has increased from 2011 (63.0%) to 65.0% in 2016.²⁴³ This was significantly higher than the State rate (41.0%).²⁴⁴

For the City of Philadelphia, the percentage of Adults Never Tested for HIV, 18-39 Years of Age, has increased slightly between 2012 (23.2% and 2014/15 (25.6%).²⁴⁵ Asian (53.5%) and White (32.1%) Adults age 18-39 are more likely to have never been tested for HIV as compared to those who are Hispanic (20.4%) and Black and the Philadelphia population overall (25.6%).²⁴⁶

PNEUMONIA VACCINE

From 2011-2013 to 2015-2017, the percentage of Adults age 65 or older who have ever had a Pneumonia Vaccine was significantly lower than the State percentage.²⁴⁷ Since 2011-2013 (66.0%), the percentage increased to 70.0% (2015-2017) and was no longer significantly lower than the State percentage of 74.0%.²⁴⁸

PRIORITIZATION

On March 7, 2019, FCCC Leadership met to review primary and secondary data collected and discussed the health needs and issues present across the hospital's service area. In preparation for this meeting, 35 needs and issues were identified based on health, social, economic and other health disparities found in the data (differences in sub-populations, comparison to state, national or Healthy People 2020 goals, negative trends, or growing incidence). The individual needs and issues were categorized into themes related to the topic areas outlined in this CHNA including:

- Access to Healthcare;
- Chronic Disease;
- Mental Health;
- Substance Use Disorder/Tobacco Use;
- Physical Activity and Nutrition;
- Healthy Environment;
- Healthy Women, Mothers, Babies and Children; and
- Communicable Diseases.

During the Steering Committee meeting, the Steering Committee completed a prioritization exercise using the OptionFinder audience response polling system to rate all identified needs on a 1 to 10 scale for each of the selected criteria. **Table 4** outlines the prioritization criteria.

Table 4: Prioritization Criteria

Item	Definition	Scoring		
		Low (1)	Medium (5)	High (10)
Magnitude of the Problem	The degree to which the problem leads to death, disability, or impaired quality of life and/or could be an epidemic based on the rate or % of population that is impacted by the issue	Low numbers of people affected; no risk for an epidemic	Moderate numbers/% of people affected and/or moderate risk	High numbers/% of people affected and/or risk for epidemic
Impact on Other Health Outcomes	The extent to which the issue impacts health outcomes and/or is a driver of other conditions	Little impact on health outcomes or other conditions	Some impact on health outcomes or other conditions	Great impact on health outcomes and other conditions
Capacity (systems and resources to implement evidence-based solutions)	This would include the capacity to and ease of implementing evidence-based solutions	There is little or no capacity (systems and resources) to implement evidence-based solutions	Some capacity (system and resources) exist to implement evidence-based solutions	There is solid capacity (system and resources) to implement evidence-based solutions in this area

Following the Steering Committee's completion of the prioritization exercise, the consulting team analyzed all response scores and ranked results based on the overall composite score (highest to lowest) calculated by summing scores for each of the three criteria described above. The top ten identified needs and issues based on the overall composite score are listed in **Table 5**. See Appendix G for the list of categorized needs and issues along with the entire prioritization results.

Table 5: Top 10 Ranked Needs and Issues of the Service Area as Ranked by the FCCC Steering Committee

	Magnitude (M)	Impact (I)	Capacity (C)	TOTAL M+I+C	Ranking
Tobacco Use: Cigarette Smoking Among Adults	4.7	4.8	3.4	12.9	1
Chronic Disease: Cancer (including all screenings)	4.2	4.4	3.5	12.1	2
Chronic Disease: Obesity (all ages)	4.6	4.8	2.7	12.1	3
Mental Health/Substance Use Disorder: Illegal Drug/Prescription Drug Abuse/Addiction	4.4	4.8	2.8	12.0	4
Chronic Disease: Diabetes	4.0	4.5	3.4	11.9	5
Chronic Disease: Cardiovascular Disease/Heart Attack	4.3	4.4	3.0	11.7	6
Access to Health Care: Poverty	4.5	4.7	2.3	11.5	7
Chronic Disease: High Blood Pressure	3.9	4.2	3.3	11.4	8
Communicable Diseases: Influenza/Pneumonia	3.4	3.9	4.0	11.3	9
Mental Health/Substance Use Disorder: Poor Mental Health/Depression	4.3	4.6	2.3	11.2	10

Source: Fox Chase Cancer Center Prioritization Exercise, 2019, Strategy Solutions, Inc.

On April 10, 2019, members of FCCC's Steering Committee met to discuss the prioritization results and identified four (4) priority areas to focus as a Hospital in order to address immediate community's health issues and care needs:

- Access to Health Care
 - » Poverty, Uninsured/Underinsured/Health Insurance Issues
 - » Lack of Education/Health Literacy
- Chronic Disease
 - » Cancer
 - » Tobacco Use
 - » Obesity
- Mental Health
 - » Caregiver Support
- Substance Use
 - » Prescription Drug Abuse/Addiction

These four priority areas are in-line with the priority areas identified and addressed in the 2016 CHNA. FCCC will continue to focus on these health needs through programs and services offered to the community. Over the next three years, the Hospital will review opportunities to expand programs and interventions based on the identified needs of the FCCC service area.

REVIEW AND APPROVAL

The 2019 CHNA was presented and approved by the FCCC Board of Directors on May 15, 2019. The FCCC 2019 CHNA is posted on the FCCC website (<https://www.foxchase.org/community/community-health>). To request a printed copy, contact: Office of Community Outreach, at 215-728-3110 or Outreach@fcc.edu.

⁷ Healthy People is a set of goals and objectives with 10-year targets designed to guide national health promotion and disease prevention efforts to improve the health of all people in the United States.

Healthy People reflects the idea that setting objectives and providing science-based benchmarks to track and monitor progress can motivate and focus action. Its comprehensive set of objectives and targets is used to measure progress for health issues in specific populations and serves as (1) a foundation for prevention and wellness activities across various sectors and within the federal government, and (2) a model for measurement at the State and local levels.

Adults Who Reported Being a Former Smoker (Female)	20.0%	19.0%	20.0%	19.0%	16.0%	-	-			+			23.0%		
Adults Who Reported Being A Former Smoker (Male)	25.0%	23.0%	24.0%	21.0%	24.0%	-	-	-		+			30.0%		
Currently using Chewing Tobacco, Snuff, or Snus, Somewhat or Everyday	2.0%	1.0%	1.0%	1.0%	2.0%	=	-	-	+	-	-	+	4.0%	3.9%	0.2%
Adults Who Have Quit Smoking at Least 1 Day in the Past Year (daily)	63.0%	63.0%	61.0%	62.0%	59.0%	-	+	+	-	-	-		51.0%		80.0%
Adults Who Reported Being a Current Smoker	25.0%	24.0%	23.0%	22.0%	22.0%	-	+	+	+	-	-	-	18.0%	17.0%	12.0%
Adults Who Reported Being An Everyday Smoker	16.0%	15.0%	15.0%	14.0%	14.0%	-	+	-		-	-		13.0%	12.3%	

ND = Not Displayed. Age-adjusted rates will not be shown for counts < 20 due to unreliability of such calculations based on small numbers. For similar reasons all other rates, ratios, or percentages will not be shown for counts < 10. If the population is less than 300 then the frequency count and rate will be suppressed.

Note: Unknowns excluded in calculations. A percent that appears in red for a region denotes a significantly higher value compared to the state's corresponding percent. A percent in blue denotes a significantly lower value

Disclaimer: If you use any of the data provided, please include the following statement in any publication or release: "These data were provided by the Pennsylvania Department of Health. The Department specifically disclaims responsibility for any analyses, interpretations, or conclusions."

US BRFSS data comes from the BRFSS Surveillance System CDC website in the prevalence and trends data tool (search was done for location all states, DC and Territories): https://www.cdc.gov/brfss/data_tools.htm

ND = Not Displayed. Age-adjusted rates will not be shown for counts < 20 due to unreliability of such calculations based on small numbers. For similar reasons all other rates, ratios, or percentages will not be shown for counts < 10. If the population is less than 300 then the frequency count and rate will be suppressed.

Note: Unknowns excluded in calculations. A percent that appears in red for a region denotes a significantly higher value compared to the state's corresponding percent. A percent in blue denotes a significantly lower value

Appendix C
2018 Focus Group Guide

Community Health Needs Assessment

Temple University Health System Fox Chase Cancer Center

FOCUS GROUP FACILITATION GUIDE

PURPOSE: GATHER COMMUNITY INPUT AND FEEDBACK ON COMMUNITY HEALTH STATUS AND HEALTH NEEDS, ACCESS TO SERVICES, AND POTENTIAL SOLUTIONS.

FEEDBACK USED TO REPORT RESULTS OF THE FOX CHASE CANCER CENTER 2019 COMMUNITY HEALTH NEEDS ASSESSMENT

This focus group is designed to last 1.5-2 hours and is broken into 5 sections:

- A. Introduction [5-10 minutes]**
- B. Overall Community Health Status [5 minutes]**
- C. Community Health Needs [35 minutes]**
- D. Access to Services [20 minutes]**
- E. Potential Solutions [20 minutes]**

A. Introduction [5-10 minutes depending on group size]

This guide assists Strategy Solutions, Inc. Personnel with the facilitation of the Community Health Focus Groups.

Please use this document for guidance, adjusting according to your audience, i.e., going into more explanation or depth, modifying a word, etc. when necessary.

Key Definitions

OptionFinder: Digital audience response polling system used to build participants' responses into a list and to vote on select questions.

Open Ended Discussion: Open dialogue discussion facilitated by SSI personnel. Participant input is not built into OptionFinder but recorded by the SSI personnel acting as the note taker during the session.

Equipment/Set Up

Equipment Needed: Projector, screen and podium (provided by host, podium only needed for groups 10+), OptionFinder voting control pads (provided by SSI). The software is on SSI laptops and must be run off the laptops.

SSI representative will work with hospital contact coordinating focus group prior to the focus group to ensure the following a projector, screen, room, chairs, etc. is available.

Room Set Up: U-shape with participants sitting in U chair formation, 2 facilitators should sit/stand at the front of the group.

A notetaker will also be in the room to record the open-ended discussions [an SSI employee will be the note taker].

Focus Group Process Talking Points

1. Hospital Representative
 - a. Welcomes group
 - b. Emphasizes importance of participants' involvement and value they bring to needs assessment process
 - c. Introduces SSI Personnel
 - d. Leaves focus group, so people can answer freely
2. SSI Representative
 - a. Welcomes group
 - b. Explains purpose of CHNA (IRS Requirement)
 - c. Explains this is part of primary data collection
 - d. Explains data will be used in the needs assessment and implementation strategy process
 - e. Reiterates importance of group's honest and open feedback
 - f. Asks everyone to take a brief moment to introduce themselves and identify the agency they represent [remind that in the interest of time, introduction should take less than a minute]
 - g. Explains OptionFinder audience response polling system and how focus group will be conducted using this software [both with the ranking and open dialogue discussions]
 - Inform participants that you will be building some of their question responses into the OptionFinder which they may also be asked to rate the level of identified community problems, potential solutions and who may be best be suited to address.
 - Note some discussion will be recorded by the notetaker and not built into OptionFinder.
 - h. Asks participants in interest of time (1-1/2 - 2 hours for the focus group) to limit feedback to 2 minutes so everyone is heard and all questions are completed.
 - i. Review Agenda [on the welcome slide of the OptionFinder software program]
 - j. Ask for any questions prior to beginning focus group

3. Facilitator begins focus group by having participants use OptionFinder to select which group best represents them:
 - a. Not-For Profit Community Agency
 - b. For Profit Business
 - c. Education
 - d. Healthcare
 - e. Government
 - f. Faith Based Organization
 - g. Community Member/Volunteer
 - h. Other

B. Overall Community Health Status [5 Minutes]

1. Overall, how would you rate the health status of your community? **[Facilitator Note: Prompt participants to think about the populations served by their agency or business].** Would you say, in general, that your community's health status is **[OPTIONFINDER VOTING]:**
 - (5) Excellent
 - (4) Very Good
 - (3) Good
 - (2) Fair or
 - (1) Poor

[Facilitator Note: Show results from OptionFinder vote]

2. Why do you say that? **[OPEN-ENDED DISCUSSION]**
3. What do you think would improve the health of the community? **[OPEN-ENDED DISCUSSION]**

C. Community Health Needs [35 Minutes]

1. Based on your experience in your community, what do you think is the single biggest community health need? **[BUILD LIST INTO OPTIONFINDER]**

Facilitator Notes:

FOCUS GROUP GUIDE

Explain you are going to build the information participants share into a list of responses within the OptionFinder. Once the response list is built, participants are asked to vote on how much of a problem they think each is using the OptionFinder responses below

Prompt for more information after each response

2. Why do you say that? **[OPEN-ENDED DISCUSSION]**

Facilitator Note: *Once participants have built the list of health needs ask them to pick up their keypads and ask the following:*

3. How much of a problem do you think each is in this community?

[OPTIONFINDER VOTING]

(3) Very Serious Problem

(2) Somewhat of a Problem

(1) Not a Problem

(0) Don't Know **[Facilitator Note:** *tell respondents to respond "0" they will need to hit the "*" key]*

4. What are some of the challenges, barriers and needs people face when dealing with cancer? **[BUILD LIST INTO OPTIONFINDER]**

Facilitator Notes:

Explain you are going to build information participants share into a list of responses within the OptionFinder. Once the response list is built, participants are asked to vote on how much of a problem they think each is using the OptionFinder responses below]

Once participants have built the list of factors ask them to pick up their keypads and ask the following:

5. How much of a problem do you think each challenge, barrier or need is that people face when dealing with cancer? **[OPTIONFINDER VOTING]**

(3) Very Serious Problem

(2) Somewhat of a Problem

(1) Not a Problem

(0) Don't Know **[Facilitator Note:** *tell respondents to respond "0" they will need to hit the "*" key]*

6. Are there certain groups within your community that are more impacted by these challenges and/or barriers? **[OPEN-ENDED DISCUSSION]**

7. What, if anything, is your organization doing to identify and address these challenges, barriers or needs? **[OPEN-ENDED DISCUSSION]**

D. Access to Services [20 Minutes]

1. What are the most needed programs/services in the community? **[BUILD INTO OPTIONFINDER]**

Facilitator Notes:

Explain you are going to build information participants share into a list of responses within the OptionFinder. Once the response list is built, participants are asked to vote on the extent they think each is currently available in the community using the OptionFinder responses below]

Once participants have built the list of factors ask them to pick up their keypads and ask the following:

2. To what extent are these programs/services available in the community? **[OPTIONFINDER VOTING]**
 - (1) This program/service is not available in the community
 - (2) This program/service is available in the community but is not adequately addressing the need (i.e. not enough providers, missing program components, limited acceptance of insurance, not available to all populations, etc.)
 - (3) This program/service is available in the community and is adequately addressing the need
 - (0) Don't Know **[Facilitator Note: Tell respondents to respond "0" they will need to hit the "*" key]**
3. How well is you **Fox Chase Cancer Center** addressing these services or programs? **[OPEN-ENDED DISCUSSION]**
4. What barriers are there to these programs/services? **[OPEN-ENDED DISCUSSION]**
5. What tools would help you communicate more effectively with your health care provider? **[OPEN-ENDED DISCUSSION]**

FOCUS GROUP GUIDE

6. Screening for cancer (i.e. mammography for breast cancer, colorectal cancer screening or lung cancer screening) is encouraged as part of a general wellness plan. However, not everyone is screened when recommended, why do you think this is? **[OPEN-ENDED DISCUSSION]**

7. What services, programs and/or resources would be helpful to you or the community regarding cancer? **[OPEN-ENDED DISCUSSION]**

8. Do you feel there is enough access to mental health programs/services in the community? **[OPTIONFINDER VOTING]**
 - (1) Yes
 - (2) No
 - (0) Don't Know **[Facilitator Note: Tell respondents to respond "0" they will need to hit the "*" key]**

9. What are the barriers accessing mental health programs? **[OPEN-ENDED DISCUSSION]**

10. Do you feel there is enough access to substance abuse programs/services in the community? **[OPTIONFINDER VOTING]**
 - (1) Yes
 - (2) No
 - (0) Don't Know **[Facilitator Note: Tell respondents to respond "0" they will need to hit the "*" key]**

11. What are the barriers accessing substance abuse programs? **[OPEN-ENDED DISCUSSION]**

12. Do you feel there is enough access to food resources in the community? **[OPTIONFINDER VOTING]**
 1. Yes
 2. No
 3. Don't Know

13. What are the barriers accessing food resources? **[OPEN-ENDED DISCUSSION]**

E. Potential Solutions [20 Minutes]

1. What suggestions do you have to help improve the health of the community?
[BUILD INTO OPTIONFINDER]

Facilitator Note: Explain you will build information participants share into a list of responses in the OptionFinder. Once the response list is built, participants are asked to vote on each response in the list twice. The first time they are asked to identify how important each is to focus on over the next three years. The second time they are asked to indicate who they feel should take the lead on implementing the idea.

2. How important is each of these to focus on over the next 3 years?
[OPTIONFINDER VOTING]

- (1) Not Important
- (2) ...
- (3) Somewhat Important
- (4) ...
- (5) Extremely Important

3. Who do you think should take the lead on each? [OPTIONFINDER]

- (1) The System should take the lead on this
- (2) The hospital should take the lead on this
- (3) The hospital should collaborate with another community agency and co-lead this **[Facilitator Note: Explain a community agency could include a nonprofit, faith based, educational or governmental entity in your community]**
- (4) A community agency should take the lead on this

4. What are the reasons current or past solutions have not worked in the community? **[OPEN-ENDED DISCUSSION]**

5. What advice would you give those of us who are working on this community assessment? **[OPEN-ENDED DISCUSSION]**

KEY INFORMANT SURVEY

Appendix D
Key Informant Survey

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey

The Community Health Needs Assessment (CHNA) process is strengthened by soliciting feedback from a variety of different community members. The information gathered is extremely valuable. We would like to invite you to participate in the following key informant survey to help us identify pressing health issues in our community. The survey should only take a few minutes to complete and the information you provide will be anonymous. We ask that you please complete the key informant survey by December 28, 2018. The information gathered from this survey will be used to identify health needs in the community and as a basis for the implementation strategy action plan.

Thank you in advance for participating in our CHNA process!

1. Please select your primary community affiliation:

- | | |
|---|--|
| <input type="checkbox"/> Non-Profit/Social Service Organization | <input type="checkbox"/> Housing Sector |
| <input type="checkbox"/> Health Care/Public Health Organization | <input type="checkbox"/> Mental/Behavioral Health Organization |
| <input type="checkbox"/> Education/Youth Services | <input type="checkbox"/> Faith-Based Organization |
| <input type="checkbox"/> Community Member | <input type="checkbox"/> Cultural Organization |

| <input type="checkbox"/> Government/Transportation Sector | <input type="checkbox"/> Fox Chase Cancer Center Staff/Employee |
| <input type="checkbox"/> Other (please specify) | |

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey

2. What are the top health issues you see in your community? Please choose the top 3 health issues from the list below.

	1	2	3
Access to Care/Uninsured	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cancer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Dental Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Diabetes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Heart Disease	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lesbian, Gay, Bi-Sexual, Transgender, Questioning (LGBTQ) Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mental Health	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Overweight/Obesity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Sexually Transmitted Diseases	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Stroke	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Substance Abuse/Alcohol Abuse	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please specify below)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

3. Other, please specify:

4. Please share your reasons for selecting these three health issues:

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey						
5. Please rate your level of agreement with the following statements:						
	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Don't Know Enough to Respond
<u>Primary Care:</u> Residents in the area are able to access a primary care provider when needed (Family Doctor, General Practitioner)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Specialty Care:</u> Residents in the area are able to access a medical specialist when needed (Cardiologist, Dermatologist, Neurologist, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Dental Care:</u> Residents are able to access a dentist when needed	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Medicaid/Medical Assistance:</u> There is a sufficient number of providers accepting Medicaid/Medical Assistance in the area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Bi-lingual Providers:</u> There is a sufficient number of bi-lingual providers in the area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Mental Health/Behavioral Health Providers:</u> There is a sufficient number of mental/behavioral health providers in the area	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Transportation:</u> Transportation for medical appointments is available to area residents when needed	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

KEY INFORMANT SURVEY

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Don't Know Enough to Respond
<u>Mental Health Services:</u> There is a sufficient number and range of mental health services in the area.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Access Mental Health Services:</u> Community members know how to access local mental health services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Substance Use Services:</u> There is a sufficient number and range of substance abuse resources in the area.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<u>Opioid Epidemic:</u> The local community is doing well managing the nationwide opioid epidemic	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey

6. What are the most significant social and economic factors that keep people in the community from accessing health care? Please pick the top 3 factors from the list below.

	1	2	3
Availability of Providers/Medical Appointments	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Inability to Navigate Health Care System	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Inability to Pay Out of Pocket Expenses (Co-pays, Prescriptions, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Child Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Employment	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Health Insurance Coverage	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Housing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Transportation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Lack of Trust	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Language/Cultural Barriers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Limited Educational Attainment	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Limited Financial Resources	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Time Limitations (Long Wait Times, Limited Office Hours, Time off Work)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
None/No Barriers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please specify below)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. Other, please specify:

KEY INFORMANT SURVEY

8. Please share your reasons for selecting these three barriers.

KEY INFORMANT SURVEY

9. Which populations do you think are underserved in your community? Please check the Top 3 populations you think are underserved.

- | | |
|---|--|
| <input type="checkbox"/> Black/African American | <input type="checkbox"/> Lesbian, Gay, Bi-sexual, Transgender, Questioning (LGBTQ) |
| <input type="checkbox"/> Asian | <input type="checkbox"/> Low-Income/Poor |
| <input type="checkbox"/> Eastern European | <input type="checkbox"/> Seniors/Aging/Elderly |
| <input type="checkbox"/> Disabled | <input type="checkbox"/> Uninsured/Underinsured |
| <input type="checkbox"/> Hispanic/Latino | <input type="checkbox"/> Young Adults |
| <input type="checkbox"/> Homeless | <input type="checkbox"/> None |
| <input type="checkbox"/> Immigrant/Refugee | |
| <input type="checkbox"/> Other (please specify) | |

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey

10. In general, where do you think most uninsured and underinsured individuals living in the area go when they are in need of medical care?

- Doctor's Office/Primary Care Physician
- Walk-in/Urgent Care Center
- Health Clinic/Federally Qualified Health Clinic (free or sliding scale clinic)
- Don't Know
- Hospital Emergency Department
- Other (please specify)

11. Please share any additional information/comments regarding uninsured/underinsured individuals and/or underserved populations:

KEY INFORMANT SURVEY

Fox Chase Cancer Center - Key Informant Survey

12. Please identify the top 3 key resources or services you feel are needed to improve access to health care for residents in the community:

	1	2	3
Bi-lingual Services/Information	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Free/Low Cost Dental Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Free/Low Cost Medical Care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health Education/Information/Outreach	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health Screenings	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Medical Specialists	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mental Health Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Prescription Assistance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Primary Care Providers	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Substance Abuse Services	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Transportation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
None	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Other (please specify)

KEY INFORMANT SURVEY

- Mental Health/Substance Use Disorder: Trauma Informed Care and ACES
- Physical Activity/Nutrition: Physical Inactivity/Access to Recreational Opportunities
- Physical Activity/Nutrition: Food Insecurity/Access to Healthy Foods
- Tobacco Use: Cigarette Smoking Among Adults

PRIORITIZATION RESULTS

TABLE 30: Prioritization Results

	Magnitude (M)	Impact (I)	Capacity (C)	TOTAL M+I+C	Ranking
Tobacco Use: Cigarette Smoking Among Adults	4.7	4.8	3.4	12.9	1
Chronic Disease: Cancer (including all screenings)	4.2	4.4	3.5	12.1	2
Chronic Disease: Obesity (all ages)	4.6	4.8	2.7	12.1	3
Mental Health/Substance Use Disorder: Illegal Drug/Prescription Drug Abuse/Addiction	4.4	4.8	2.8	12.0	4
Chronic Disease: Diabetes	4.0	4.5	3.4	11.9	5
Chronic Disease: Cardiovascular Disease/Heart Attack	4.3	4.4	3.0	11.7	6
Access to Health Care: Poverty	4.5	4.7	2.3	11.5	7
Chronic Disease: High Blood Pressure	3.9	4.2	3.3	11.4	8
Communicable Diseases: Influenza/Pneumonia	3.4	3.9	4.0	11.3	9
Mental Health/Substance Use Disorder: Poor Mental Health/Depression	4.3	4.6	2.3	11.2	10
Access to Health Care: Lack of Education/Health Literacy	4.1	4.2	2.7	11.0	11
Mental Health/Substance Use Disorder: Alcohol Abuse - Adults	3.9	4.5	2.6	11.0	12
Access to Health Care: Health Insurance Issues (copays/deductibles/affordability)	4.0	4.3	2.5	10.8	13
Mental Health/Substance Use Disorder: Lack of Mental Health Providers	4.5	4.5	1.8	10.8	14
Communicable Diseases: Child Immunizations	2.6	4.2	3.9	10.7	15
Mental Health/Substance Use Disorder: Lack of Addiction Services	3.8	4.3	2.5	10.6	16
Access to Health Care: Lack of Transportation	4.2	4.1	2.2	10.5	17
Healthy Women, Infants, Children: Childhood Obesity	4.0	4.4	2.1	10.5	18
Access to Health Care: Lack of PCPs/Specialists	4.0	4.2	2.2	10.4	19
Physical Activity/Nutrition: Food Insecurity/Access to Healthy Foods	3.6	4.0	2.6	10.2	20
Healthy and Safe Environment: Affordable and Adequate Housing	3.7	3.8	2.7	10.2	21
Communicable Diseases: Adult Immunizations	3.0	3.4	3.8	10.2	22
Physical Activity/Nutrition: Physical Inactivity/Access to Recreational Opportunities	2.8	3.8	3.1	9.7	23
Access to Health Care: Aging Population Health Needs	3.4	3.4	2.7	9.5	24

PRIORITIZATION RESULTS

	Magnitude (M)	Impact (I)	Capacity (C)	TOTAL M+I+C	Ranking
Mental Health/Substance Use Disorder: Suicide	3.6	3.5	2.4	9.5	25
Healthy Women, Infants, Children: Affordable/Access to Early Childhood Care and Quality After School Programs	3.3	3.1	2.7	9.1	26
Mental Health/Substance Use Disorder: Alcohol Impaired Driving Deaths	2.8	3.7	2.5	9.0	27
Healthy and Safe Environment: Asthma	2.8	2.8	2.8	8.4	28
Healthy and Safe Environment: Lack of Safe Roads and Sidewalks	3.2	2.5	2.4	8.1	29
Healthy and Safe Environment: Disconnected Youth	3.2	3.0	1.8	8.0	30
Healthy Women, Infants, Children: Teen Pregnancy	2.6	2.9	2.5	8.0	31
Mental Health/Substance Use Disorder: Trauma Informed Care and ACES	3.1	3.2	1.5	7.8	32
Mental Health/Substance Use Disorder: Insufficient Sleep	2.6	3.2	1.5	7.3	33
Mental Health/Substance Use Disorder: High Risk Youth (6th Grade)	2.3	2.8	1.9	7.0	34
Healthy and Safe Environment: Lack of Community Fluoridated Water/Fresh, Available Drinking Water	2.1	2.3	2.2	6.6	35
